DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

September 21, 2020.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by October 26, 2020 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Foreign Agricultural Service

Title: Dairy Tariff-Rate Import Quota Licensing Program.

OMB Control Number: 0551–0001.

Summary of Collection: The Dairy Tariff-Rate Import Quota regulation (the Regulation) (7 CFR part 6.20–6.37) which governs the administration of the import licensing system applicable to most dairy products subject to tariff-rate quotas (TRQs). The importation of most cheese made from cow's milk and certain non-cheese dairy articles (butter, dried milks, and butter substitutes) are subject to TRQs and must be accompanied by an import license issued by the Department to enter at the lower tariff. Importers without licenses may enter these dairy articles but are required to pay the higher tariff. The Foreign Agricultural Service (FAS) will collect information using several forms.

Need and Use of the Information: FAS will use the collected information in the administration of the tariff-rate import quota licensing system for certain dairy products and the issuance of licenses in accordance with the Regulation. If the information were collected less frequently, FSA would be unable to issue licenses on an annual basis in compliance with the Import Regulation.

Description of Respondents: Business or other-for-profit.

Number of Respondents: 700.

Frequency of Responses: Record keeping, Reporting: Annually.

Total Burden Hours: 479.

Food Safety and Inspection Service

Title: In-Home Food Safety Behaviors and Consumer Education: Web Survey.

OMB Control Number: 0583–0178.

Summary of Collection: The U.S. Department of Agriculture's (USDA) Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary of Agriculture (7 CFR 2.18, 2.53) as specified in the Federal Meat Inspection Act and the Poultry Products Inspection Act (21 U.S.C. 453, *et seq.*, 601 *et seq.*) FSIS protects the public by verifying that meat, poultry, and processed egg products are wholesome; not adulterated; and properly marked, labeled, and packaged. USDA FSIS' Office of Public Affairs and Consumer Education (OPACE) ensures that all segments of the farm-to-table chain receive valuable food safety information. The consumer education

programs developed by OPACE's inform the public on how to safely handle, prepare, and store meat, poultry, and processed egg products to minimize incidence or foodborne illness. FSIS will contact web-based surveys of consumers.

Need and Use of the Information: Finding from the web surveys will provide information on how FSIS communication programs and materials affect consumer understanding of recommended safe food handling practices and insight into how to effectively inform consumers of recommended practices. The results of this exploratory research will be used to enhance communication programs and materials to improve consumers' food safety behaviors and help prevent foodborne illness.

Description of Respondents: Individuals or households.

Number of Respondents: 9,092.

Frequency of Responses: Reporting: One time.

Total Burden Hours: 1,956.

SUPPLEMENTARY INFORMATION:

Title: Federal Excess Personal Property (FEPP) and Firefighter Property (FFP) Program Administration.

OMB Number: 0596-0223.

Type of Request: Extension without Revision.

Abstract: Federal Excess Personal Property (FEPP) and Firefighter Property (FFP) Program Cooperative Agreements are available to State forestry agencies. The program administration provides participating State agencies with surplus Department of Defense and other Federal agencies equipment and supplies to be used in firefighting and emergency services. The FEPP program loans property to the State who in turn sub-loans the equipment and supplies to fire departments. The FFP program transfers ownership of many types of property to either the State agency or the individual fire department.

A cooperative agreement collects information from the participating State agencies and outlines the requirements and rules for the cooperation. Each State forestry agency shall provide an Accountable Officer who will be responsible for the integrity of the program within their respective State. For this reason, FEPP and FFP collects the state forestry agency contact information, the information of the Accountable Officer, and the requirements of participation in the FEPP and FFP programs.

A cooperative agreement is prepared by each State forestry agency that desires to participate in one, or both programs. Participating State agencies must submit separate agreements if they desire to be participants in both programs. Agreements will be processed and maintained at the United States Department of Agriculture, Forest Service, Fire and Aviation Management, Landscapes and Partnerships Assistant Director area and in each Forest Service Regional Office.

Since the FEPP property belongs to the Forest Service, the agency inventory

system facilitates reporting by state agencies to the Forest Service on the status and location of the property. State agencies use the electronic database (Federal Excess Property Management Information System or FEPMIS) to submit information regarding the property make, model, serial number, acquisition value, location, and acquisition date when an item is acquired or no longer needed. Forest Service property management technicians will collect the information from FEPMIS and enter it into the National Finance Center database (CPAIS-PP), as required by Federal Property Management Regulations. Forest Service property management officers will analyze the data collected to ensure that the property accountability is accurate, and no misuse of property is occurring.

The authority to loan surplus supplies to state agencies comes from the Federal Property and Administration Services Act of 1949, 40 U.S.C. and grants the authority for the FEPP program. Authority to donate excess supplies comes from 10 U.S.C., Subtitle A, Part IV, Chapter 153, 2576b which grants the authority for the FFP program.

Estimate of Annual Burden: 1 hour and 2 minutes.

Type of Respondents: State Foresters and State Agency FEPP property managers.

Estimated Annual Number of Respondents: 65.

Estimated Annual Number of Responses per Respondent: 302.

Estimated Total Annual Burden on Respondents: 570 hours.

Comment is Invited:

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the
