

or requests for copies of the complete applications or requests for a public hearing on these applications should be submitted to the Director (address above). Anyone requesting a hearing should give specific reasons why a hearing would be appropriate. The holding of such a hearing is at the discretion of the Director.

Applicant: University of Michigan, Department of Environmental Health Sciences, Ann Arbor, MI, PRT-197043

The applicant requests a permit to import biological specimens collected from polar bears (*Ursus maritimus*) in range countries for the purpose of scientific research. This notification covers activities to be conducted by the applicant over a five-year period.

Applicant: University of Florida, College of Veterinary Medicine, Aquatic Animal Health Program, Gainesville, FL, PRT-067116

The applicant requests a renewal of the permit to collect biological specimens from West Indian manatees (*Trichechus manatus*) for the purpose of scientific research. This notification covers activities to be conducted by the applicant over a five-year period.

Concurrent with the publication of this notice in the **Federal Register**, the Division of Management Authority is forwarding copies of the above applications to the Marine Mammal Commission and the Committee of Scientific Advisors for their review.

Dated: January 9, 2009.

Lisa J. Lierheimer,

Senior Permit Biologist, Branch of Permits, Division of Management Authority.

Fish and Wildlife Service

[FWS-R7-R-2008-N0253; [70133-1265-0000-S3]

Innoko National Wildlife Refuge, McGrath, AK

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of the revised comprehensive conservation plan and finding of no significant impact for environmental assessment.

SUMMARY: We, the Fish and Wildlife Service (Service) announce the availability of our Revised Comprehensive Conservation Plan (CCP) and Finding of No Significant Impact (FONSI) for the Environmental

Assessment (EA) for the Innoko National Wildlife Refuge (Innoko Refuge). In this revised CCP, we describe how we will manage this Refuge for the next 15 years.

ADDRESSES: You may view or obtain copies of the revised CCP and FONSI by any of the following methods. You may request a paper copy, a summary, or a CD-ROM containing both.

Agency Web Site: Download a copy of the documents at <http://alaska.fws.gov/nwr/planning/innopol.htm>.

E-mail:

fw7_innoko_planning@fws.gov. Please include "Innoko Refuge Revised CCP" in the subject line of the message.

Mail: Rob Campellone, Planning Team Leader, U.S. Fish and Wildlife Service, 1011 East Tudor Road, MS 231, Anchorage, AK 99503-6199.

In-Person Viewing or Pickup: Call (907) 786-3357 to make an appointment during regular business hours at the USFWS Regional Office, 1011 E. Tudor Road, Anchorage, AK 99503 or call (907) 524-3251 to make an appointment during regular business hours at Innoko Refuge, 40 Tonzona, McGrath, AK 99627.

FOR FURTHER INFORMATION CONTACT: Rob Campellone, Planning Team Leader, (907) 786-3357 or fw7_innoko_planning@fws.gov.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we finalize the CCP process for the Innoko Refuge. We started this process with a notice of intent in the **Federal Register** (72 FR 8197, Feb. 23, 2007) We announced the availability of the draft CCP and EA, and requested comments in a notice of availability in the **Federal Register** (73 FR 27842, May 14, 2008).

Established by the Alaska National Interest Lands Conservation Act (94 Stat. 2371) in 1980, Innoko Refuge covers some 3,850,000 acres and is one of the most important waterfowl areas in west central interior Alaska. Approximately half of the Refuge consists of wetlands set with innumerable lakes and ponds of varying size. The remainder is marked by hills, most of which are less than one thousand feet in elevation. Almost one-third of the Refuge is designated Wilderness. The route of the historic Iditarod Trail crosses the Refuge.

Refuge purposes include (1) conservation of fish and wildlife populations and habitats in their natural diversity including, but not limited to, waterfowl, peregrine falcons, other migratory birds, black bear, moose, furbearers, and other mammals and

salmon; (2) fulfilling the international treaty obligations of the United States with respect to fish and wildlife and their habitats; (3) providing, in a manner consistent with purposes (1) and (2) above, the opportunity for continued subsistence by local residents; and ensuring, to the maximum extent practicable and in a manner consistent with purpose (1) above, water quality and necessary water quantity within the Refuge.

We announce our decision and the availability of the FONSI for the revised CCP for Innoko Refuge in accordance with National Environmental Policy Act (NEPA) [40 CFR 1506.6(b)] requirements. We completed a thorough analysis of impacts on the human environment in the EA that accompanied the draft revised CCP.

The CCP will guide us in managing and administering the Innoko Refuge for the next 15 years. The revised CCP is Alternative B, the proposed action in the draft CCP, edited slightly in response to public comments.

Background

The Alaska National Interest Lands Conservation Act of 1980 (94 Stat. 2371; ANILCA) and the National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd-668ee) require us to develop a CCP for each Alaska refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. We will review and update the CCP at least every 15 years in accordance with national policy and ANILCA. ANILCA requires us to designate areas according to their respective resources and values and to specify programs and uses within the areas designated. To meet this requirement, the Alaska Region established management categories for refuges including Wilderness, Minimal, Moderate, Intensive, and Wild River management. For each management category we identified appropriate activities, public uses, commercial uses, and facilities. Only Wilderness and Minimal management categories are applied to Innoko Refuge.

Draft CCP Alternatives

Our draft CCP and EA addressed seven issues and evaluated two alternatives. The seven significant issues raised during scoping were: (1) Competition for moose harvesting; (2) management of air taxis to balance

demand for visitor access with user experience and resource protection; (3) threats to water quality from off-Refuge mining; (4) Refuge enhancement of its relationship with local communities; (5) monitoring and addressing the effects of climate change; (6) the State of Alaska's wood bison project; and (7) ensuring resource protection while providing for subsistence and other public uses.

Alternative A (the no-action alternative—a NEPA requirement) described what would happen with a continuation of current management activities and served as a baseline for comparison of other alternative. Under Alternative A, management of the Refuge would continue to follow the current course of action as described in the 1987 Innoko CCP and Record of Decision as modified by subsequent program-specific plans. Refuge lands would remain in their present management categories.

Under our selected alternative, Alternative B, Refuge lands would continue to be managed in their present management categories. New regional wildlife refuges in Alaska would be incorporated. The vision, goals, and objectives proposed in the draft CCP would be adopted to guide Refuge management.

Comments on the Draft CCP

Public comments on the draft CCP and EA were solicited from May 14, 2008 through July 22, 2008. A public meeting was held in McGrath but no one attended it. Comments were received from the State of Alaska, three conservation organizations, one big-game guide outfitter, and two individuals.

One individual requested a ban on all hunting, trapping, logging, new roads and prescribed burning in the Refuge. The other individual recommended that the Refuge Headquarters be moved to Galena. Support for the State of Alaska's wood bison project and opposition to future subsistence hunting of wood bison was expressed. The outfitter-guide expressed concern about management of air taxis and management of hunting within the Refuge. Two conservation organizations requested the CCP include Wilderness and Wild and Scenic River recommendations. One organization provided comments on motorized and mechanized activities, climate change, and supported disclosure of information about State of Alaska right-of-way claims. One organization provided a number of specific comments on access and fisheries enhancement in wilderness. The State of Alaska provided technical and editorial

comments on wood bison, fisheries management, goals and objectives, predator management, management policies and guidelines, and draft compatibility determinations.

No substantive revisions to Alternative B, the proposed action, were made as a result of the public comments on the Draft Revised Innoko CCP. A number of technical corrections were made in response to comments and many of the editorial suggestions provided by the State of Alaska were adopted.

Dated: October 10, 2008.

Thomas O. Melius,

Regional Director, U.S. Fish and Wildlife Service, Anchorage, Alaska.

Editorial Note: This document was received in the Office of the Federal Register on Tuesday, January 27, 2009.

Bureau of Land Management

[L14200000.BJ0000-LLNM915000-2009]

Notice of Filing of Plats of Survey; New Mexico and Oklahoma

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Filing of Plats of Survey.

SUMMARY: The plats of survey described below are scheduled to be officially filed in the New Mexico State Office, Bureau of Land Management (BLM), Santa Fe, New Mexico, 30 calendar days from the date of this publication

SUPPLEMENTARY INFORMATION:

New Mexico Principal Meridian, New Mexico

The plat representing metes-and-bounds survey of certain lot lines in secs. 19, 20, and 21, Township 20 North, Range 7 East of the New Mexico Principal Meridian, New Mexico accepted November 26, 2008, for Group 1067 NM.

The plat representing the dependent resurvey of a portion of the east and the west boundary, subdivisional lines, certain tracts and subdivision of secs. 17 and 18, Township 19 North, Range 6 East, of the New Mexico Principal Meridian, New Mexico accepted November 26, 2008, for Group 1067 NM.

Indian Meridian, Oklahoma

The plat representing the dependent resurvey of a portion of the west boundary, subdivisional lines,

subdivision sec. 19, survey of the Illinois River and metes-and-bounds survey of certain Indian Trust Lands in sec. 19, Township 17 North, Range 23 East of the Indian Meridian, Oklahoma, accepted January 8, 2009 for Group 143 OK.

The plat representing the dependent resurvey of a portion of the subdivisional lines, the survey of the Washita River and a portion of the subdivision of sec. 10, Township 7 North, Range 9 West, of the Indian Meridian, Oklahoma, accepted September 30, 2008, for Group 144 OK.

The plat representing the dependent resurvey of a portion of the subdivisional lines, survey of the Washita River, the subdivision and metes-and-bounds survey in sec. 15, Township 7 North, Range 10 West, of the Indian Meridian, Oklahoma, accepted September 30, 2008, for Group 150 OK.

The plat representing the dependent resurvey of a portion of the First Guide Meridian West, subdivisional lines, the subdivision and metes-and-bounds survey of sec. 7, Township 2 South, Range 4 West, of the Indian Meridian, Oklahoma, accepted September 30, 2008, for Group 166 OK.

The plat representing the dependent resurvey of a portion of the east boundary, subdivisional lines, and survey of the Canadian River in sec. 25, Township 5 North, Range 7 East, of the Indian Meridian, Oklahoma, accepted September 30, 2008, for Group 167 OK.

The plat representing the dependent resurvey of a portion of the boundary between the States of Oklahoma, Missouri, and Kansas, subdivisional lines, a portion of the subdivision and metes-and-bounds survey of sec. 17, Township 29 North, Range 25 East, of the Indian Meridian, Oklahoma, accepted January 15, 2009, for Group 169 OK.

The plat representing the dependent resurvey of a portion of the north boundary, and subdivisional lines, the subdivision and metes-and-bounds survey of a certain parcel in sec. 3, Township 9 North, Range 10 West, of the Indian Meridian, Oklahoma, accepted January 8, 2009, for Group 170 OK. The plat representing the dependent resurvey of a portion of the north boundary, the subdivisional lines, portions of the subdivision of secs., 4, 5, 9 and 10, and portions of a metes-and-bounds survey in secs., 4, 5, 9 and 10, Township 7 North, Range 10 West, of the Indian Meridian, Oklahoma, accepted January 8, 2009, for Group 170 OK.

The plat representing the dependent resurvey of a portion of the
