

Needs and Uses: FCC Form 601 is a consolidated, multi-part application form that is used for market-based and site-based licensing for wireless telecommunications services, including public safety licenses, which are filed through the Commission's Universal Licensing System (ULS). FCC Form 601 is composed of a main form that contains administrative information and a series of schedules used for filing technical and other information. This form is used to apply for a new license, to amend or withdraw a pending application, to modify or renew an existing license, cancel a license, request a duplicate license, submit required notifications, request an extension of time to satisfy construction requirements, or request an administrative update to an existing license (such as mailing address change), request a Special Temporary Authority or Developmental License. Respondents are encouraged to submit FCC Form 601 electronically and are required to do so when submitting FCC Form 601 to apply for an authorization for which the applicant was the winning bidder in a spectrum auction.

The data collected on FCC Form 601 includes the FCC Registration Number (FRN), which serves as a "common link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 requires entities filing with the Commission use an FRN.

On June 2, 2014, the Commission released a Second Report and Order FCC 14-62, WT Docket Nos. 08-166 and 08-167 and ET Docket No. 10-24, "Revisions to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698-806 MHz Band." This order expanded eligibility for low power auxiliary station licenses under Part 74 by adding two new categories of eligible entities: "Large venue owner or operator" and "professional sound company." To accommodate these changes we are revising Schedule H of Form 601 to add two new categories of eligible entities: "Large venue owner or operator" and "professional sound company." In order to be eligible for a Part 74 license, a large venue owner or operator and a professional sound company must routinely use 50 or more low power auxiliary station devices, where the use of such devices is an integral part of major events or productions. We also increased the number of respondents by 200 responses to include these new applicants.

The Commission received approval from OMB for a revision to its currently approved information collection on FCC

Form 601 to revise Schedule H accordingly and increase the total number of respondents by 200.

Needs and Uses: The Commission seeks to extend existing information collection requirements in its closed captioning rules (47 CFR 79.1), which require that, with some exceptions, all new video programming, and 75 percent of "pre-rule" programming, be closed captioned. The existing collections include petitions by video programming providers, producers, and owners for exemptions from the closed captioning rules, responses by commenters, and replies; complaints by viewers alleging violations of the closed captioning rules, responses by video programming distributors, and recordkeeping in support of complaint responses; and making video programming distributor contact information available to viewers in phone directories, on the Commission's Web site and the Web sites of video programming distributors (if they have them), and in billing statements (to the extent video programming distributors issue them). In addition, the Commission seeks to extend proposed information collection requirements. Specifically, on February 20, 2014, the Commission adopted rules governing the quality of closed captioning on television. *Closed Captioning of Video Programming; Telecommunications for the Deaf and Hard of Hearing, Inc. Petition for Rulemaking*, CG Docket No. 05-231, Report and Order, Declaratory Ruling, and Further Notice of Proposed Rulemaking, 29 FCC Rcd 2221 (2014), published at 79 FR 17911 (March 31, 2014). The Commission took the following actions, among others:

(a) Required video programming distributors to make best efforts to obtain certification from video programmers that their programming (i)

complies with the captioning quality standards established in the Report and Order; (ii) adheres to the Best Practices for video programmers set out in the Report and Order; or (iii) is exempt from the closed captioning rules under one or more properly attained and specified exemptions.

(b) Adopted additional requirements and a "compliance ladder" for broadcasters that use electronic newsroom technique.

(c) Required video programming distributors to keep records of their activities related to the maintenance, monitoring, and technical checks of their captioning equipment.

(d) Required that petitions requesting an exemption based on the economically burdensome standard and all subsequent pleadings, as well as comments, oppositions, or replies to comments, be filed electronically in accordance with 47 CFR 0.401(a)(1)(iii) instead of as a paper filing.

Comments, oppositions, or replies to comments must be served on the other party, by delivering or mailing a copy to the last known address in accordance with 47 CFR 1.47 or by sending a copy to the email address last provided by the party, its attorney, or other duly constituted agent, and must include a certification that the other party was served with a copy.

Update Mailing Addresses Pertaining to Satellite Emergency Radiobeacons

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Federal Communications Commission (FCC) revises certain mailing addresses pertaining to satellite emergency radiobeacons which are used to facilitate search and rescue of persons in distress. We update the rules to include the correct mailing addresses for the National Oceanographic and Atmospheric Administration's (NOAA) National Beacon Registration Database, the Radio Technical Commission for Maritime Services (RTCM), the Radio

Technical Commission for Aeronautics (RTCA), and the United States Coast Guard (Coast Guard). This Order updates the mailing addresses provided in our rules for NOAA, RTCM, RTCA and the Coast Guard.

DATES: Effective December 29, 2014. The incorporation by reference of certain publications listed in the rule was previously approved by the Director of the Federal Register.

ADDRESSES: Federal Communications Commission, 445 12th Street SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: James Shaffer, Mobility Division, Wireless Telecommunications Bureau, at (202) 418-0687.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Order* ("Order") in DA 14-1286 adopted on September 5, 2014, and released on September 5, 2014. The full text of this document is available for inspection and copying during normal business hours in the FCC Reference Center, 445 12th Street SW., Washington, DC 20554. The complete text may be purchased from the Commission's copy contractor, Best Copy and Printing, Inc., 445 12th Street SW., Room CY-B402, Washington, DC 20554. The full text may also be downloaded at: www.fcc.gov. Alternative formats are available to persons with disabilities by sending an email to fcc504@fcc.gov or by calling the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice), 202-418-0432 (tty).

In this *Order*, the FCC revised 47 CFR 80.7, 80.1061, 87.199 and 95.1402 to update NOAA's address for its National Beacon Registration Database used by beacon owners to register emergency information used during emergencies. We also update RTCM and RTCA addresses used for obtaining technical standards for beacons that part 80 and 87 incorporate by reference. Finally, we update the rules to reflect Coast Guard's new mailing and Internet addresses used for submitting findings by a test facility accepted by the Coast Guard for assuring beacons meet the relevant RTCM technical standard. Updating these mailing addresses will reduce confusion and delay in registering emergency information with NOAA, assure NOAA receives important information from beacon users, reduce confusion and delay in obtaining copies of needed technical standards and reduce confusion and delay in filing test results with the Coast Guard.
