

concerns (as defined by Section 3 of the Small Business Act (15 U.S.C. 632)). The December 24, 2008 **Federal Register** notice contained an extensive discussion of DHS' approaches to best reflect the interests of small businesses and the purpose of the PS-Prep Program. DHS continues to seek comments from small businesses and others on the adoption of these standards and their impact on future decisions to seek certification under the PS-Prep Program.

## VII. Questions for Which Comment or Recommendations Are Specifically Sought

The Department requests comments, suggestions, or other advice regarding the PS-Prep Program, including but not limited to responses to the following questions:

1. Are there reasons that DHS should not adopt any one of the three standards listed above?
2. Are there any supporting guidance materials in addition to the three identified standards that are needed to help the private sector attain certification to one of the three standards?
3. What factors would a business consider in determining which DHS adopted standard(s) to pursue for certification under the PS-Prep Program?
4. What are the reasons for businesses to seek certification under these identified standards?
5. How would the fact that an organization is certified under the PS-Prep Program affect or otherwise influence your decision to do business with them?
6. In response to the December 2008 **Federal Register** notice, DHS received numerous comments promoting the use of a "maturity model process improvement approach" for business preparedness and continuity. The maturity model was described as an approach whereby certifications on certain standards could be incremental, *i.e.*, grading on a scale of conformance, rather than a conformance/non-conformance basis. The notice noted that certifications will determine conformity or non-conformity with a particular standard. How could the use of a maturity model approach be applied to certification to any of these standards?
7. What may be the potential impact (*e.g.*, cost, return on investment, other considerations, *etc.*) on small businesses

when attempting to implement any of the above identified standards?
