SUPPLEMENTARY INFORMATION:

History

A direct final rule published in the **Federal Register** January 30, 2008, established controlled airspace at Marienville, PA (73 FR 5431). In that rule, airspace was established to serve a landing site at the local high school to accommodate medical helicopter operations. After publication, an error was found in the name of the landing area. The landing area's name was printed as "East Marien High School Heliport", and should have been listed as "East Forest Junior/Senior High School Airport". This action corrects that error.

Confirmation of Effective Date

The FAA uses the direct final rulemaking procedure for a noncontroversial rule where the FAA believes that there will be no adverse public comment. This direct final rule advised the public that no adverse comments were anticipated, and that unless a written adverse comment, or a written notice of intent to submit such an adverse comment were received within the comment period, the regulation would become effective on April 10, 2008. The FAA also advised that a "Confirmation of Effective Date" docket would be published in the **Federal Register** after the comment period ended as verification that no adverse comments were received and confirming the effective date of the Rule. No adverse comments were received and this document verifies that effective date.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule, request for comments; withdrawal.

SUMMARY: This action withdraws the direct final rule published in the **Federal Register** April 14, 2008 modifying Class D Airspace at Brunswick, ME. Class D Airspace to reflect part-time status.
