## FEDERAL TRADE COMMISSION

### Notice Requesting Comments on Retail Electricity Competition Plans

**AGENCY:** Federal Trade Commission.

**ACTION:** Notice requesting comments on retail electricity competition plans.

**SUMMARY:** Many States have enacted and, in some cases, begun to implement legislation designed to introduce competition into the retail sale of

electricity in order to encourage lower prices, better service, and greater innovation. Recently, however, substantial price increases and reliability problems in some of the areas undergoing a transition to competition raise questions about how electricity restructuring can best be designed to benefit retail customers. The Federal Trade Commission seeks to gather information about the results, to date, of different regulatory approaches to the issues that arise in restructuring the retail sale of electricity. The Commission will produce a report that discusses the advantages and disadvantages associated with different approaches to particular issues and that identifies, if warranted, areas in which additional federal legislative or regulatory action may be desirable.

**DATES:** Comments are due on April 3, 2001.

**ADDRESSES:** Any interested person may submit a written comment that will be considered part of the public record. Written presentations should be submitted in both hard copy and electronic form. Six hard copies of each submission should be addressed to Donald S. Clark, Office of the Secretary, Federal Trade Commission, 600 Pennsylvania Avenue, NW., Washington, DC 20580. Submissions should be captioned “V010003—Comments Regarding Retail Electricity Competition.” Electronic submissions may be sent by electronic mail to [retailelectricity@ftc.gov](mailto:retailelectricity@ftc.gov). Alternatively, electronic submissions may be filed on a 3½ inch computer disk with a label on the disk stating the name of the submitter and the name and version of the word processing program used to create the document.

**FOR FURTHER INFORMATION CONTACT:** Michael Wroblewski, Policy Planning, Federal Trade Commission, 600 Pennsylvania Ave., NW., Washington, DC 20580, 202–326–2155, [mwroblewski@ftc.gov](mailto:mwroblewski@ftc.gov) or John Hilke, Bureau of Economics, Federal Trade Commission, 1961 Stout Street, C/O HHS RM. 325, Denver, CO 80294–0101, 303–844–3565, [jhilke@ftc.gov](mailto:jhilke@ftc.gov).

#### SUPPLEMENTARY INFORMATION:

##### Overview

In recent years, many states and the Federal government have taken steps to encourage competition in the generation sector of the electric power industry. To date, 24 states and the District of Columbia have set dates to allow customers to choose their electric power supplier. In light of recent reliability problems and increases in electricity prices in California and the western
