

which is the China-wide entity rate (*i.e.*, 149.92 percent).

Consistent with its recent notice,⁵ Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of this notice in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

Because we rescinded this administrative review, we have not calculated a company-specific dumping margin for DCL. Therefore, entries of DCL's subject merchandise continue to be subject to the China-wide cash deposit rate of 149.92 percent. This cash deposit rate requirement shall remain in effect until further notice.

Administrative Protective Order

This notice also serves as a reminder to parties subject to Administrative Protective Order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: July 7, 2021.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

ACTION: Notice of intent to conduct restoration planning activities.

SUMMARY: Notice is hereby given of intent to proceed with restoration planning actions to address injuries to natural resources resulting from the discharge of oil from the Kirby Inland Marine LP tank barge 30015T (the "Incident"). The purpose of this restoration planning effort is to evaluate and select restoration actions to compensate the public for the natural resource injuries resulting from the Incident.

SUPPLEMENTARY INFORMATION:

Background

On May 10, 2019, tank barge 30015T, owned by Kirby Inland Marine, LP ("Kirby"), collided with the tanker ship Genesis River near Bayport, Texas. The collision penetrated the hull of Kirby's barge 30015T, and an estimated 14,278 barrels (about 600,000 gallons) of oil in the form of reformat, a gasoline blending stock, was lost from the barge. Reformat discharged from the Kirby barge flowed into the Houston Ship Channel and Galveston Bay, spreading westward and southward and washing ashore on the western coastline of the bay roughly between Red Bluff and Eagle Point, Texas. The discharge affected natural resources in the general area. All of the foregoing is referred to as the "Incident."
