FEDERAL TRADE COMMISSION

Agency Information Collection Activities; Proposed Collection; Comment Request; Extension

AGENCY: Federal Trade Commission.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the Federal Trade Commission (FTC or Commission) is seeking public comment on its proposal to extend for an additional three years the Office of Management and Budget (OMB) clearance for information collection requirements in Trade Regulation Rule entitled Labeling and Advertising of Home Insulation (R-value Rule or Rule). That clearance expires on January 31, 2021.

DATES: Comments must be received on or before December 28, 2020.

ADDRESSES: Interested parties may file a comment online or on paper by following the instructions in the Request for Comments part of the **SUPPLEMENTARY INFORMATION** section below. Write "R-value Rule; PRA Comment: FTC File No. P072108" on

your comment, and file your comment online at <https://www.regulations.gov> by following the instructions on the web-based form. If you prefer to file your comment on paper, mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW, Suite CC-5610 (Annex J), Washington, DC 20580, or deliver your comment to the following address: Federal Trade Commission, Office of the Secretary, Constitution Center, 400 7th Street SW, 5th Floor, Suite 5610 (Annex J), Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: Hampton Newsome, Attorney, Division of Enforcement, Federal Trade Commission, Room CC-9528, 600 Pennsylvania Avenue NW, Washington, DC 20580, (202) 326-2889.

SUPPLEMENTARY INFORMATION:

Title: R-value Rule, 16 CFR part 460.

OMB Control Number: 3084-0109.

Type of Review: Extension of a currently approved collection.

Likely Respondents: Insulation manufacturers, installers, home builders, home sellers, insulation sellers.

Estimated Annual Hours Burden: 132,707 hours.

Estimated Annual Cost Burden: \$2,732,510 (solely related to labor costs).

Abstract: The R-value Rule establishes uniform standards for the substantiation and disclosure of accurate, material product information about the thermal performance characteristics of home insulation products. The R-value of an insulation signifies the insulation's degree of resistance to the flow of heat. This information tells consumers how well a product is likely to perform as an insulator and allows consumers to determine whether the cost of the insulation is justified.

As required by section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), the FTC is providing this opportunity for public comment before requesting that OMB extend the existing clearance for the information collection requirements contained in the Commission's R-value Rule.

R-value Rule Burden Statement

Estimated annual hours burden: 132,707 hours.

The Rule's requirements include product testing, recordkeeping, and third-party disclosures on labels, fact sheets, advertisements, and other promotional materials. Based on information provided by members of the insulation industry, staff estimates that the Rule affects: (1) 150 Insulation

manufacturers and their testing laboratories; (2) 1,615 installers who sell home insulation; (3) 125,000 new home builders/sellers of site-built homes and approximately 5,500 dealers who sell manufactured housing; and (4) 25,000 retail sellers who sell home insulation for installation by consumers.

(1) Manufacturers

Under the Rule's testing requirements, manufacturers must test each insulation product for its R-value. Based on past industry input, staff estimates that the test takes approximately two hours. Approximately 15 of the 150 insulation manufacturers in existence introduce one new product each year. Their total annual testing burden is therefore approximately 30 hours.

Staff further estimates that most manufacturers require an average of approximately 20 hours per year regarding third-party disclosure requirements in advertising and other promotional materials. Only the five or six largest manufacturers require additional time, approximately 80 hours each. Thus, the annual third-party disclosure burden for manufacturers is approximately 3,360 hours [(144 manufacturers × 20 hours) + (6 manufacturers × 80 hours)].

While the Rule imposes recordkeeping requirements, most manufacturers and their testing laboratories keep their testing-related records in the ordinary course of business. Staff estimates that no more than one additional hour per year per manufacturer is necessary to comply with this requirement, for an annual recordkeeping burden of approximately 150 hours (150 manufacturers × 1 hour).

(2) Installers

Installers are required to show the manufacturers' insulation fact sheet to retail consumers before purchase. They must also disclose information in contracts or receipts concerning the R-value and the amount of insulation to install. Staff estimates that two minutes per sales transaction is sufficient to comply with these requirements. Approximately 2,000,000 retrofit insulations (an industry source's estimate) are installed by approximately 1,615 installers per year, and, thus, the related annual burden total is approximately 66,667 hours (2,000,000 sales transactions × 2 minutes). Staff anticipates that one hour per year per installer is sufficient to cover required disclosures in advertisements and other promotional materials. Thus, the burden for this requirement is approximately 1,615 hours per year. In addition, installers must keep records that
