

weapons systems in the recent past, to include the KC-135 tanker fleet, and currently, the RC-135 fleet. Given the projected retention of the B-52 for several decades into the future, the Task Force will examine and assess the operational and supportability of B-52 re-engining from the perspectives of: Effective operational weapons system employment, to include tanker demands; efficient ground and flight operations, to include fuel consumption factors; engine reliability and systems performance; technical and supportability risks of remaining with the TF-33 engine for future decades; streamlined support concepts from a best value viewpoint, to include total contractor support options; implementation issues, to include conventional as well as innovative acquisition and financing options; contracting and legal considerations—to include termination issues; and affordability of re-engining as compared to life extension concepts.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. No. 92-463, as amended (5 U.S.C. App. II), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meeting will be closed to the public.
