

Farm Bill (Pub. L. 110–246); the 2008 Farm Bill amended Title IX (Section 9011) of the Farm Security and Rural Investment Act of 2002 (Pub. L. 107–171, commonly known as the 2002 Farm Bill). BCAP is intended to support the establishment and production of crops for conversion to bio-energy in project areas (locations) and to assist with collection, harvest, storage, and transportation of eligible material for use in a biomass conversion facility.

As a new energy program, BCAP presents an opportunity to encourage landowners and operators to produce biomass for commercial energy production in ways that both are economically and environmentally sound. CCC plans to implement BCAP by approving the best-qualifying project proposals from project sponsors and then entering into contracts with individual producers in the approved project locations.

Under the National Environmental Policy Act (NEPA), the EIS process provides a means for the public to provide input on implementation alternatives and on environmental concerns. This notice informs the public of CCC's intention to prepare an EIS for BCAP.

Signed in Washington, DC, on September 24, 2008.

Glen L. Keppy,

Executive Vice President, Commodity Credit Corporation.

Natural Resources Conservation Service

New Creek Site 14 Rehabilitation Project, New Creek—Whites Run Subwatershed of the Potomac River Watershed, Grant County, WV

AGENCY: Natural Resources Conservation Service.

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR Part 1500); and the Natural Resources Conservation Service Regulations (7 CFR Part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the New Creek Site 14 Rehabilitation Project of the New Creek—Whites Run Subwatershed of the Potomac River Watershed, Grant County, West Virginia.

FOR FURTHER INFORMATION CONTACT: Kevin Wickey, State Conservationist, Natural Resources Conservation Service, 75 High Street, Room 301, Morgantown, WV 26505, Phone: 304–284–7540.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional or national impacts on the environment. As a result of these findings, Kevin Wickey, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project purposes are to rehabilitate Site 14 to bring the site into compliance with current Natural Resources Conservation Service design criteria and performance standards. The planned works of improvement include: Raising the effective top of dam to prevent overtopping during the probable maximum precipitation (PMP) event; Installation of a new intake riser; Lining the principal spillway pipe; Installing
