The proposed Consent Decree between Defendant, the United States, and the State of Illinois requires the following: (1) A schedule for completion of the Tunnel and Reservoir Program (“TARP”), the long term control plan to increase Defendant's capacity to handle wet weather events and address CSO discharges in Chicago area waterways; (2) a plan to control floatables in such waterways; (3) post construction monitoring following completion of TARP; (4) payment of a civil penalty of \$675,000, of which \$350,000 will be paid to the United States and \$325,000 to the State of Illinois; and (5) a green infrastructure program to reduce CSO
