

Roundtable will meet on July 19, 2000 to discuss the Restoration Reserve policy, 2001 project selection process, environmental water program, and other topics. The Amendments Subcommittee will also meet on July 19, 2000 to discuss proposed contract modifications for several ongoing ecosystem restoration projects. These meetings are open to the public. Interested persons may make oral statements to the Ecosystem Roundtable and Amendments Subcommittee or may file written statements for consideration.

DATES: The BDAC's Ecosystem Roundtable meeting will be held from 9:30 a.m. to 12 p.m. on Wednesday, July 19, 2000. The Ecosystem Roundtable Amendments Subcommittee meeting will be held from 1 p.m. to 3 p.m. on Wednesday, July 19, 2000.

ADDRESSES: The Ecosystem Roundtable and Amendments Subcommittee will meet at the Resources Building, Room 1404-17, 1416 Ninth Street, Sacramento, CA 95814.

FOR FURTHER INFORMATION CONTACT: Wendy Halverson Martin, CALFED Bay-Delta Program, at (916) 657-2666. If reasonable accommodation is needed due to a disability, please contact the Equal Employment Opportunity Office at (916) 653-6952 or TDD (916) 653-6934 at least one week prior to the meeting.

SUPPLEMENTARY INFORMATION: The San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta system) is a critically important part of California's natural environment and economy. In recognition of the serious problems facing the region and the complex resource management decisions that must be made, the State of California and the Federal government are working together to stabilize, protect, restore, and enhance the Bay-Delta system. The State and Federal agencies with management and regulatory responsibilities in the Bay-Delta system are working together as CALFED to provide direction and oversight for the process.

One area of Bay-Delta management includes the establishment of a joint State-Federal process to develop long-term solutions to problems in the Bay-Delta system related to fish and wildlife, water supply reliability, natural disasters, and water quality. The intent is to develop a comprehensive and balanced plan that addresses all of the resource problems. This effort, the CALFED Bay-Delta Program (Program), is being carried out under the policy direction of CALFED. The Program is exploring and developing a long-term solution for a cooperative planning

process that will determine the most appropriate strategy and actions necessary to improve water quality, restore health to the Bay-Delta ecosystem, provide for a variety of beneficial uses, and minimize Bay-Delta system vulnerability. A group of citizen advisors representing California's agricultural, environmental, urban, business, fishing, and other interests who have a stake in finding long-term solutions for the problems affecting the Bay-Delta system has been chartered under the Federal Advisory Committee Act (FACA). The BDAC provides advice CALFED on the program mission, problems to be addressed, and objectives for the Program. BDAC provides a forum to help ensure public participation, and will review reports and other materials prepared by CALFED staff. BDAC has established a subcommittee called the Ecosystem Roundtable to provide input on annual workplans to implement ecosystem restoration projects and programs.

Minutes of the meeting will be maintained by the Program, Suite 1155, 1416 Ninth Street, Sacramento, CA 95814, and will be available for public inspection during regular business hours, Monday through Friday within 30 days following the meeting.

Dated: June 29, 2000.

Kirk C. Rodgers,

Deputy Regional Director, Mid-Pacific Region, Bureau of Reclamation, Department of the Interior.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-828 (Final)]

Bulk Acetylsalicylic Acid (Aspirin) From China

Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission determines, pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)) (the Act), that an industry in the United States is threatened with material injury by reason of imports from China of bulk acetylsalicylic acid (aspirin), provided for in subheadings 2918.22.10 and 3003.90.00 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce to be sold

in the United States at less than fair value (LTFV). The Commission further determines that it would not have found material injury but for the suspension of liquidation.

Background

The Commission instituted this investigation effective May 28, 1999, following receipt of a petition filed with the Commission and the Department of Commerce by Rhodia, Inc., Cranbury, NJ. The final phase of the investigation was scheduled by the Commission following notification of a preliminary determination by the Department of Commerce that imports of bulk aspirin from China were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the Commission's investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of February 4, 2000 (65 FR 5659). The hearing was held in Washington, DC, on May 18, 2000, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on June 30, 2000. The views of the Commission are contained in USITC Publication 3314 (June 2000), entitled Bulk Acetylsalicylic Acid (Aspirin) from China: Investigation No. 731-TA-828 (Final).

By order of the Commission.

Issued: June 29, 2000.

Donna R. Koehnke,

Secretary.
