

necessary, and would be used, to provide staff with a sufficient basis for determining whether: (1) Granting the relief would be necessary or appropriate under the facts and circumstances presented by the requestor; (2) the relief provided should be conditional and/or time-limited; and (3) granting the relief would be consistent with staff responses to requests that have been presented under similar facts and circumstances. In some cases, the requested relief might be granted upon the requirement that those who seek the benefits of that relief fulfill certain conditions that are necessary to ensure that the relief granted by Commission staff is appropriate. Once again, it is likely that those who would comply with these conditions will have determined that the sought relief outweighs the compliance burden. This information collection also is necessary to provide a mechanism whereby persons requesting interpretative, no-action, and exemptive letters may seek temporary confidential treatment of their request and the Commission staff response thereto and the grounds upon which such confidential treatment is sought.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. On March 18, 2020, the Commission published in the **Federal Register** notice of the proposed extension of this information collection and provided 60 days for public comment on the proposed extension, 85 FR 15436 ("60-Day Notice"). The Commission did not receive any relevant comments on the 60-Day Notice. Accordingly, the Commission believes that the burden estimate described in the 60-Day Notice is appropriate.

Burden Statement: The Commission is revising its estimate of the burden for this collection for persons registered with the Commission (such as commodity pool operators, commodity trading advisors, derivatives clearing organizations, designated contract markets, futures commission merchants, introducing brokers, swap dealers, and swap execution facilities), persons seeking an exemption from registration, persons whose registration with the Commission is pending, trade associations and their members, eligible contract participants, and other persons seeking relief from discrete regulatory requirements.

The respondent burden for this collection is estimated to be as follows:

Estimated Number of Respondents:
68.

Estimated Average Burden Hours per Respondent: 40.

Estimated Total Annual Burden Hours: 2,720.

Frequency of Collection: Occasional.

There are no capital costs or operating and maintenance costs associated with this collection.
