

(variable loan rates); V.I. Code Ann. tit. 11, sec. 951 (legal rate of interest).

The Finance Board uses the information collection to produce the MIRS and for general statistical purposes and program evaluation. Economic policy makers use the MIRS data to determine trends in the mortgage markets, including interest rates, down payments, terms to maturity, terms on ARMs and initial fees and charges on mortgage loans. Other federal banking agencies use the MIRS results for research purposes. Information concerning the MIRS is regularly published on the Finance Board's website (fhfb.gov/mirs) and in press releases, in the popular trade press, and in publications of other federal agencies.

The likely respondents include a sample of 307 savings associations, mortgage companies, commercial banks and savings banks. The information collection requires each respondent to complete FHFB Form 10-91 on a monthly basis.

The OMB number for the information collection is 3069-0001. The OMB clearance for the information collection expires on April 30, 2001.

B. Burden Estimate

The Finance Board estimates the total annual average number of respondents at 307, with 12 responses per respondent. The estimate for the average hours per response is 1.0 hour. The estimate for the total annual hour burden is 3,684 hours (307 respondents × 12 responses/respondent × approximately 1.0 hour).

C. Comment Request

The Finance Board requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of Finance Board functions, including whether the information has practical utility; (2) the accuracy of the Finance Board's estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
