SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the CCP process for Swanquarter National Wildlife Refuge. We started the process through a notice in the **Federal Register** on November 3, 2000 (65 FR 66256).

Swanquarter National Wildlife Refuge, on Pamlico Sound in Hyde County, NC, was established by Presidential Order on June 23, 1932. The Service has acquired all of the property within the refuge's acquisition boundary. The refuge consists of 16,411 acres of saltmarsh islands and forested

wetlands interspersed with potholes, creeks, and drains. Marsh vegetation is dominated by black needlerush and sawgrass. The mainland is forested by loblolly pine, pond pine, and bald cypress. Approximately 8,800 acres of the refuge have been designated as wilderness. An additional 27,082 acres of adjacent, non-refuge open water are closed by presidential proclamation to the taking of migratory birds. The purposes of the refuge are: “for use as an inviolate sanctuary, or for any other management purpose, for migratory birds;” “for the development, advancement, management, conservation, and protection of fish and wildlife resources * * * for the benefit of the United States Fish and Wildlife Service, in performing its activities and services;” and for the supplemental purpose of protecting and providing a wilderness area.

Swanquarter National Wildlife Refuge is in the South Atlantic Coastal Plain Ecosystem and is part of the migration corridor for migratory birds that use the Atlantic Flyway. Wildlife species of management concern on the refuge include the American black duck, lesser scaup, canvasback, redhead, surf scoter, seaside sparrow, sharp-tailed sparrow, brown-headed nuthatch, black-throated green warbler, black rail, yellow rail, clapper rail, Forster's tern, peregrine falcon, bald eagle, osprey, black bear, red wolf, Carolina pygmy rattlesnake, and American alligator. The white-tailed deer is also a resident game species.

Background

The CCP Process

The National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd–668ee), which amended the National Wildlife Refuge System Administration Act of 1966, requires us to develop a CCP for each national wildlife refuge. The purpose in developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation, wildlife photography, and environmental education and interpretation. We will review and update the CCP at least
