Abstract: The purpose of this project is to remove superseded regulations at 33 Code of Federal Regulations (CFR) part 135, and to finalize the Oil Pollution Act of 1990 (OPA90) claims procedures at 33 CFR part 136. The OPA90 claims procedures, implementing OPA90 section 1013 (Claims Procedures) and section 1014 (Designation of Source and Advertisement), were established by an interim rule, titled “Claims under the Oil Pollution Act of 1990” (Interim Rule) that has not been substantively amended since it was published in 1992. Abstract: The Coast Guard proposes to amend the lifejacket approval requirements and follow-up program requirements by incorporating three new bi-national standards. At the same time, the Coast Guard proposes to amend lifejacket and personal flotation devices (PFDs) carriage requirements to allow for the use of equipment approved to the new standards, and to remove obsolete equipment approval requirements. The new standards are state-of-the-art and are intended to replace the legacy standards. The proposed amendments will streamline the process for approval of PFDs and allow manufacturers the opportunity to produce more innovative equipment that meets the approval requirements of both Canada and the United States, while reducing the burden for manufacturers in both the approval process and follow-up program. These proposed changes are expected to promote economic relief. The proposed rule is expected to promote economic relief by reducing the regulatory burden on PFD manufacturers by harmonizing our PFD approval standards with Canada, requiring less frequent inspections of manufacturing facilities, providing lower cost PFD user manuals, and by creating a new market in PFDs with a lower buoyancy rating.

Legal Authority: 46 U.S.C. 4502 and 5103; Pub. L. 111–281

Abstract: The Coast Guard proposes to implement those requirements of 2010 and 2012 legislation that pertain to uninspected commercial fishing industry vessels and that took effect upon enactment of the legislation but that, to be implemented, require amendments to Coast Guard regulations affecting those vessels. The applicability of the regulations is being changed, and new requirements are being added to safety training, equipment, vessel examinations, vessel safety standards, the documentation of maintenance, and the termination of unsafe operations. This rulemaking promotes the Coast Guard's maritime safety mission.

Abstract: This final rule implements the provisions of section 203 of the Security and Accountability for Every

Port Act of 2006. On November 25, 2008, Customs and Border Protection (CBP) published an interim final rule (CBP Dec. 08–46) in the **Federal Register** (73 FR 71730), that finalized most of the provisions proposed in the Notice of Proposed Rulemaking. It requires carrier and importers to provide to CBP, via a CBP approved electronic data interchange system, certain advance information pertaining to cargo brought into the United States by vessel to enable CBP to identify high-risk shipments to prevent smuggling and ensure cargo safety and security. The interim final rule did not finalize six data elements that were identified as areas of potential concern for industry during the rulemaking process and, for which, CBP provided some type of flexibility for compliance with those data elements. CBP solicited public comment on these six data elements and also invited comments on the revised Regulatory Assessment and Final Regulatory Flexibility Analysis. (See 73 FR 71782–85 for regulatory text and 73 CFR 71733–34 for general discussion.)

315. Implementation of the Guam-CNMI Visa Waiver Program (Section 610 Review)

Legal Authority: Pub. L. 110–229, sec. 702

Abstract: The interim final rule amends Department of Homeland Security (DHS) regulations to implement section 702 of the Consolidated Natural Resources Act of 2008 (CNRA). This law extends the immigration laws of the United States to the Commonwealth of the Northern Mariana Islands (CNMI) and provides for a joint visa waiver program for travel to Guam and the CNMI. This rule implements section 702 of the CNRA by amending the regulations to replace the current Guam Visa Waiver Program with a new Guam-CNMI Visa Waiver Program. The amended regulations set forth the requirements for nonimmigrant visitors who seek admission for business or pleasure and solely for entry into and stay on Guam or the CNMI without a visa. This rule also establishes six ports of entry in the CNMI for purposes of administering and enforcing the Guam-CNMI Visa Waiver Program. Section 702 of the Consolidated Natural Resources Act of 2008 (CNRA), subject to a transition period, extends the immigration laws of the United States to the Commonwealth of the Northern Mariana Islands (CNMI) and provides for a visa waiver program for travel to Guam and/or the CNMI. On January 16, 2009, the Department of Homeland Security (DHS), Customs and Border Protection (CBP), issued an interim final rule in the **Federal Register** replacing the then-existing Guam Visa Waiver Program with the Guam-CNMI Visa Waiver Program and setting forth the requirements for nonimmigrant visitors seeking admission into Guam and/or the CNMI under the Guam-CNMI Visa Waiver Program. As of November 28, 2009, the Guam-CNMI Visa Waiver Program is operational. This program allows nonimmigrant visitors from eligible countries to seek admission for business or pleasure for entry into Guam and/or the CNMI without a visa for a period of authorized stay not to exceed 45 days. This rulemaking would finalize the January 2009 interim final rule.

Abstract: This action was previously reported as 1652–AA55. TSA published a Security Training Final Rule on March 23, 2020. This rule required owner/operators of higher-risk freight railroad carriers, public transportation agencies (including rail mass transit and bus systems), passenger railroad carriers, and over-the-road bus companies, to provide TSA-approved security training to employees performing security-sensitive functions. On May 1, 2020, TSA delayed the effective date of the final rule to September 21, 2020, in recognition of the potential impact of the COVID–19 public health crisis and related strain on resources for owner/operators required to comply with the regulation. TSA revised all compliance dates within the rule to reflect the new effective date. On October 26, 2020, TSA extended certain compliance dates from December 21, 2020, to March 22, 2021. On May 4, 2021, TSA extended the compliance deadline for submission of the required security training program from March 22, 2021, to no later than June 21, 2021.

Long-Term Actions

319. Chemical Facility Anti-Terrorism Standards (CFATS)

Legal Authority: 6 U.S.C. 621 to 629

Abstract: The Cybersecurity and Infrastructure Security Agency (CISA)

previously invited public comment on an Advance Notice of Proposed Rulemaking (ANPRM) during August 2014 for potential revisions to the Chemical Facility Anti-Terrorism Standards (CFATS) regulations. The ANPRM provided an opportunity for the public to provide recommendations for possible program changes. In June 2020, CISA published for public comment a retrospective analysis of the CFATS program. And in January 2021, CISA invited additional public comment through an ANPRM concerning the removal of certain explosive chemicals from CFATS. CISA intends to address many of the subjects raised in both ANPRMs and the retrospective analysis in this regulatory action, including potential updates to CFATS cybersecurity requirements and Appendix A to the CFATS regulations.
