

Applicants state that the New Services will be provided to IES at cost, as determined in accordance with rules 90 and 91 and all cost of operation will be calculated and allocated in accordance with rules 90 and 91 of the Act.

Alliant Energy Corporation, et al. (70-9617)

Alliant Energy Corporation ("Alliant Energy"), a registered holding company, and its wholly owned non-utility subsidiary, Alliant Energy Resources, Inc. ("Resources") each with principal executive offices at 222 West Washington Avenue, Madison, Wisconsin 53703, have filed an application under sections 9(a) and 10 of the Act and rule 54 of the Act.

Alliant Energy's public utility subsidiaries are Wisconsin Power & Light Company, South Beloit Water, Gas and Electric Company, Interstate Power Company, and IES Utilities Inc. Collectively, Alliant Energy's public utility subsidiaries provide public utility service to approximately 919,000 electric and 394,000 retail gas customers in parts of Wisconsin, Iowa, Minnesota and Illinois. Resources serves as the holding company for substantially all of Alliant Energy's energy related and non-utility investments and subsidiaries.

Resources is seeking authority to acquire, either directly or indirectly through a subsidiary, up to 6,666,666 shares out of a total of 25,000,000 shares of Series G Senior Preferred Stock, \$0.001 par value per share ("Series G Preferred Stock") of Capstone Turbine Corporation ("Capstone"), a privately held California corporation. Capstone designs, fabricates and markets an air-bearing based microturbine that is capable of using various fuels to generate electric power. Capstone's proprietary microturbine technology, referred to as the Capstone Micro Turbine™ ("Micro Turbine"), is designed for use as an alternative power source in the multi-billion dollar worldwide market for distributed power generation. The Micro Turbine is intended for such applications as standby generation, peak load shaving, resources recovery and hybrid electric vehicles.

The aggregate purchase price to be paid by Resources for the Series G Preferred Stock would be approximately \$20 million, or \$3.00 per share. In addition, Resources would be contractually bound by the terms of an

engaged by NMC, all administrative and overhead costs and an allocable portion of the return on and of the investment by NMC in capital items owned by NMC.

amended and restated stockholders agreement ("Stockholders Agreement"). Under the terms of the Stockholders Agreement, Resources would be obligated to vote for directors designated by holders of Capstone's common stock and by holders of certain other series of preferred stock. The Stockholders Agreement terminates on the earlier of April 9, 2007 or upon an initial public offering of Capstone meeting certain standards set forth in the Capstone's Articles of Incorporation.

The Series G Preferred Stock and other preferred stock currently outstanding will automatically convert into common stock of Capstone, either on a vote of 75% of Capstone's preferred stockholders or following an initial public offering by Capstone having aggregate gross proceeds of at least \$30 million and an initial offering price at least equal to \$8.00 per share. The shares of common stock which would be received by Resources upon conversion would represent approximately six percent of the total number of outstanding Capstone common stock shares.⁴

In conjunction with the proposed transaction, Resources and Capstone also intend to enter into a packaging and distribution agreement ("Distribution Agreement"). Under the Distribution Agreement, Capstone would appoint Resources as a distributor of Capstone products, including completed Micro Turbine assemblies, subassemblies and parts (including controls and software) which are used or will be used by customers in stationary electric power generation applications. Resources would have the right under the Distribution Agreement, directly or through subdistributors (which may be subsidiaries of Resources), to promote, market, sell, install, commission and service Capstone products on either an exclusive or non-exclusive basis. As a condition to its appointment as a distributor of Capstone products, Resources may also agree to purchase a specified number of completed Micro Turbine system assemblies for resale or lease. It is contemplated that Resources would remarket Capstone products to customers and/or package such products with other products and materials manufactured or acquired by Resources (or a subsidiary) for ultimate sale to customers.

⁴ This estimate is based on the number of shares of common stock and preferred stock of Capstone outstanding on January 27, 2000, and assumes no further issuances of preferred stock (other than the currently approved 25 million shares of Preferred Stock to be issued) prior to the conversion date.

For the Commission by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

Lifekeepers International, Inc.; Order of Suspension of Trading

February 7, 2000.

It appears to the Securities and Exchange Commission that there is a lack of current and accurate information concerning the securities of Lifekeepers International, Inc. ("Lifekeepers"), because of questions regarding the accuracy of statements of Lifekeepers and others concerning, among other things, Lifekeepers' financial condition, projected financial condition and the status of Lifekeeper's securities registration statements.

The Commission is of the opinion that the public interest and the protection of investors require a suspension of trading in the securities of the above-listed company.

Therefore, it is ordered, pursuant to Section 12(k) of the Securities Exchange Act of 1934, that trading in the above-listed company is suspended for the period from 9:30 a.m. EST, February 8, 2000 through 11:59 p.m. EST, on February 22, 2000.

By the Commission.

Jonathan G. Katz,

Secretary.
