

report. The Council took final action on Framework Adjustment 65 to the Northeast Multispecies FMP during its December 2022 meeting. During this January 2023 meeting, the Council will possibly revise the framework's ABCs for Atlantic halibut for fishing years 2023–25 after considering the SSC's recommendations. This is the only issue to be discussed under Framework Adjustment 65. In other groundfish actions, the Council will provide recommendations to GARFO on fishing year 2023 recreational measures for Georges Bank cod, Gulf of Maine cod, and Gulf of Maine haddock. The Council also will receive a progress report on the development of metrics for the review process to evaluate the groundfish monitoring system under Amendment 23. Lastly, the Council will receive an update on the 2023 Atlantic Cod Research Track Assessment and ongoing discussions about cod stock structure. The Council will close out the day with a NOAA Fisheries report on results from the November 14–21, 2022 Annual Meeting of the International Commission for the Conservation of Atlantic Tunas (ICCAT). The Council also will hear recommendations from the Advisory Committee to the U.S. Section of ICCAT.

Thursday, January 26, 2023

The Council will lead off the third day of its meeting with a brief overview of its Risk Policy and provide guidance for its Risk Policy Committee. Then, the Council will discuss and approve its response to the Office of National Marine Sanctuaries' request for information and input on draft regulations for fishing within the proposed Hudson Canyon National Marine Sanctuary. The Ecosystem-Based Fishery Management (EBFM) Committee report will follow. The report will include: (1) a progress report on the prototype Management Strategy Evaluation (pMSE) planning meetings for EBFM and the Georges Bank example Fishery Ecosystem Plan (eFEP); and (2) the EBFM Committee's advice on conducting deep-dive public information workshops for EBFM. The Council next will receive a presentation on the peer-reviewed results of the Research Track Stock Assessments for spiny dogfish and bluefish and then review and approve the Council's harassment prevention policies. Finally, the Council will close out the meeting with other business.

Although non-emergency issues not contained on this agenda may come before the Council for discussion, those issues may not be the subject of formal action during this meeting. Council

action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies (see **ADDRESSES**) at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 4, 2023.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Ad Hoc Groundfish Electronic Monitoring Policy Advisory and Technical Advisory Committees (GEMPAC/TAC) will hold an online meeting, which is open to the public. **DATES:** The meeting will be held Tuesday, January 31, 2023, from 9 a.m. to 4 p.m. and Friday, February 3, 2023, from 9 a.m. to 12 p.m., Pacific Time, or until business for each day is completed.

ADDRESSES: This meeting will be held online. Specific meeting information, including directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820–2412 for technical assistance.

noaa.gov) or contact him at (503) 820–2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220–1384.

FOR FURTHER INFORMATION CONTACT:

Brett Wiedoff, Staff Officer, Pacific Council; telephone: (503) 820–2424.

SUPPLEMENTARY INFORMATION: The primary purpose of this meeting is for the GEMPAC/TAC to review materials and prepare recommendations for the March 2023 Pacific Council meeting regarding potential changes to the Pacific Council's electronic monitoring program.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820–2412) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 5, 2023.

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of hybrid meeting.

SUMMARY: The North Pacific Fishery Management Council (Council) Salmon Bycatch Committee will meet January 25, 2023.

DATES: The meeting will be held on Wednesday, January 25, 2023, from 9 a.m. to 5 p.m. Alaska Time.

ADDRESSES: The meeting will be a hybrid meeting. Attend in-person at the North Pacific Fishery Management Council office, 1007 West Third Ave., Suite 400, Anchorage, AK 99501 or join online through the link at <https://meetings.npfmc.org/Meeting/Details/2972>.

Council address: North Pacific Fishery Management Council, 1007 W 3rd Ave., Anchorage, AK 99501-2252; telephone: (907) 271-2809. Instructions for attending the meeting are given under **SUPPLEMENTARY INFORMATION**, below.

FOR FURTHER INFORMATION CONTACT: Dr. Diana Stram, Council staff; phone: (907) 271-2809 and email: diana.stram@noaa.gov. For technical support, please contact our administrative staff; email: npfmc.admin@noaa.gov.

SUPPLEMENTARY INFORMATION:

Agenda

Wednesday, January 25, 2023

The agenda will include: (a) review of the State of Alaska Bycatch Task Force recommendations; (b) Process and timeline for initiating an amendment/analysis; (c) Discussion of regulatory and non-regulatory management measures for consideration including caps and closures considered in 2012; and (d) and other business. The agenda is subject to change, and the latest version will be posted at <https://meetings.npfmc.org/Meeting/Details/2972> prior to the meeting, along with meeting materials.

Connection Information

You can attend the meeting online using a computer, tablet, or smart phone; or by phone only. Connection information will be posted online at: <https://meetings.npfmc.org/Meeting/Details/2972>.

Public Comment

Public comment letters will be accepted and should be submitted electronically to <https://meetings.npfmc.org/Meeting/Details/2972>.

Dated: January 4, 2023.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 77 Highly Migratory Species (HMS) Hammerhead Sharks Assessment Webinar VII.

SUMMARY: The SEDAR 77 assessment of the Atlantic stock of hammerhead sharks will consist of a stock identification (ID) process, data webinars/workshop, a series of assessment webinars, and a review workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 77 HMS Hammerhead Sharks Assessment Webinar VII is scheduled for Tuesday, January 24, 2023, from 12 p.m. to 3 p.m., Eastern Time. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Registration for the webinar is available by contacting the SEDAR coordinator via email at Kathleen.Howington@safmc.net.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT: Kathleen Howington, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4371; email: Kathleen.Howington@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-

step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the SEDAR 77 HMS Hammerhead Shark Assessment Webinar VII are as follows: discuss any leftover data issues that were not cleared up during the data process, answer any questions that the analysts have, and discuss model development and model setup.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council office (see **ADDRESSES**) at least 5 business days prior to the meeting.
