

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Coastal Zone Management Program Administration**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on March 4, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Coastal Zone Management Program Administration.

OMB Control Number: 0648–0119.

Form Number(s): None.

Type of Review: Regular submission (revision and extension of a current information collection).

Number of Respondents: 34.

Average Hours per Response: Performance Reports, 72 hours; assessment and strategy documents, 260 hours; Section 306A questionnaire and documentation, 25 hours; amendments and routine program changes, 15 hours; CNP documentation, 240 hours; CZMA Performance Management System, 25 hours.

Total Annual Burden Hours: 8,916.

Needs and Uses: This request is for revision and extension of a currently approved information collection.

In 1972, in response to intense pressure on United States (U.S.) coastal resources, and because of the importance of U.S. coastal areas, the U.S. Congress passed the Coastal Zone Management Act of 1972 (CZMA), 16 U.S.C. 1451 *et seq.* The CZMA authorized a federal program to encourage coastal states and territories to develop comprehensive coastal management programs. The CZMA has been reauthorized on several occasions, most recently with the enactment of the Coastal Zone Protection Act of 1996

(CZMA as amended). The program is administered by the Secretary of Commerce, who in turn has delegated this responsibility to the National Oceanic and Atmospheric Administration's (NOAA) National Ocean Services (NOS).

The coastal zone management grants provide funds to states and territories to implement federally-approved coastal management programs; complete information for the Coastal Zone Management Program (CZMP) Performance Management System; develop multi-year program assessments and strategies to enhance their programs within priority areas under Section 309 of the CZMA; submit documentation as described in the CZMA Section 306A for specific construction, acquisition, and educational projects; submit requests to update their federally-approved programs through amendments or program changes; and develop and submit state coastal nonpoint pollution control programs (CNP) as required under Section 6217 of the Coastal Zone Act Reauthorization Amendments.

Revisions: The CZM performance report guidance will undergo minor updates that will ensure consistency with NOAA/NOS grants requirements as well as CZMA strategic priorities. The revised CZM performance measure guidance will provide clarification for reporting on competitive and multi-year awards, as well as additional guidance on financial reporting requirements. The revised Coastal Zone Management Act Program Change Procedures revisions provide a more efficient program change process for states.

The CZMA Section 306A guidance will also likely undergo minor updates to address several technical issues that arose from the 2018 guidance update as well as clarify several minor policy issues. However, NOAA does not anticipate any changes to the record keeping requirements or time estimates for collecting the necessary documentation.

Affected Public: State, Local, or Tribal government.

Frequency: On occasion, depending on the collection instrument.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Coastal Zone Management Act (16 U.S.C. 1451, *et seq.*).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed

information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0119.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–08–P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Weather.gov Visitor Experience Survey**

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before September 19, 2022.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.Thomas@noaa.gov. Please reference OMB Control Number 0648–xxxx in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Dr. Tyra Brown Harris, Project Manager, DOC/NOAA/NWS/DISS, 11691 SW 17th

Street, Miami, FL 33165–2149, (202) 468–8972, tyra.brown@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for a new collection of information.

The data collection is sponsored by DOC/NOAA/National Weather Service (NWS)/Office of Dissemination (DISS) in consultation with the NWS Communications Division. *Weather.gov* is the main entry point to NWS forecasts, warnings, and other information for a diverse user community, including the public, partners and emergency managers, academia, researchers, and employees. The user interface is intended to serve many purposes for these audiences but regular feedback through Customer Satisfaction Surveys from all users emphasizes varying levels of difficulty locating basic information. Such difficulty diminishes the overall customer experience. Additionally, during high impact events, *Weather.gov* is known to suffer performance issues due to increased traffic.

The *Weather.gov* Survey is permitted under 15 U.S.C. Ch. 111, Weather Research and Forecasting Information. It also advances the NWS Strategic Plan (2019–2022) “Transformative Impact-Based Decision Support Services (IDSS) and Research to Operations and Operations to Research (R2O/O2R). The Survey also addresses the NWS Weather Ready Nation (WRN) Roadmap (2013) Sections 1.1.1, 1.1.2, 1.1.3, 1.1.8, and 3.1.4.

The purpose of this collection is to help determine the appropriate web content for *weather.gov* so the customer experience can be improved and the content can be better accessed and used. NWS is looking to improve functionality, ease of use, and formatting but feedback on any other areas of *weather.gov* that NWS should consider updating is welcome as well. The collection will create a high-level data requirements document that identifies a set of high-priority NWS products, services, and observations that provide mission-critical, timely, and reliable information to make decisions with when seconds count. The document will also identify high-level partner requirements for accessibility (mobile versus desktop), timeliness, and reliability.

This information would be collected on a one-off basis and analyzed by Forrester Research, who has assisted NWS in creating a survey instrument and would provide NWS with a summary of findings, raw data and access to interactive “dashboards”, or

tools, to visualize the aggregated data. Respondents include the general public, defined as (adults ages 18+) who reside in the United States, as well as NWS partners. Forrester will oversee recruitment of U.S. adults by an online market research company that aggregates large panels of people who sign up to complete internet surveys. Respondents will be asked questions about their preferred way of getting weather information (including weather on regular days and during severe/hazardous weather), their use of *Weather.gov* and other weather websites, interest in different types of weather information on a website, priorities and preferences in accessing weather-related information online, and preferred format of receiving weather information. This data collection serves many purposes, including gaining a better understanding of the online weather information needs (including information about hazardous weather) of different customer groups, including historically underserved and socially vulnerable communities, how they prefer to receive this information, how they would like the *Weather.gov* main page to be organized, what additional functionality they expect that would make them feel better prepared for hazardous weather, and has the potential to explore possible correlations and causal relationships with other observed variables of interest. This data will be used by the OSTI in NWS to develop a set of website content requirements to improve the structure and navigation on *Weather.gov*.

II. Method of Collection

Since the primary objective is to inform website content requirements for *Weather.gov*, the method of data collection will be a web-based survey interface. Survey sample respondents (from an online panel) will be nationally representative, using demographic questions captured in the survey to set quotas that mirror the distribution of demographic groups in the U.S. and Territories. The survey will be translated to Spanish.

III. Data

OMB Control Number: 0648–XXXX.

Form Number(s): None.

Type of Review: Regular (New information collection).

Affected Public: Individuals and Households.

Estimated Number of Respondents: 14,750.

Estimated Time per Response: *Weather.gov* Survey: 15 minutes.

Estimated Total Annual Burden Hours: 3,688.

Estimated Total Annual Cost to Public: None.

Respondent's Obligation: Voluntary.

Legal Authority: 15 U.S.C. Ch. 111, Weather Research and Forecasting Information.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.
