Needs and Uses: On January 29, 2003, the Commission issued a First Order on Reconsideration and Second Report and Order, FCC 03-9, which grants in part and denies in part the petitions for reconsideration filed in response to the Report and Order. The Commission's home run wiring rules were modified in the First Order on Reconsideration to provide that in the event of sale, the home run wiring be made available to the MDU owner or alternative provider during the 24-hour period prior to actual service termination by the incumbent and that home run wiring located behind sheet rock is physically inaccessible for purposes of determining the demarcation point between home wiring and home run wiring. In the Second Report and Order, the Commission adopted a limited exemption for small non-cable MVPDs from the signal leakage reporting requirements and concluded that the cable and home run wiring rules should apply to all MVPDs in the same manner that they apply to cable operators. The Commission declined to restrict exclusive contracts or ban perpetual contracts. The Commission also declined to allow MDU owners to require sharing of incumbent-owned cable wiring.

Needs and Uses: In October 2002, the Commission released the *First Report*

and Order ("Order"), *Digital Audio Broadcasting Systems and Their Impact on the Terrestrial Radio Broadcast Service*, FCC 02-286, MM Docket 99-325, (67 FR 78193). Pursuant to this Order, the Commission selected in-band, on-channel (IBOC) as the technology that permits AM and FM radio broadcasters to introduce digital operations efficiently and rapidly. In addition, provisions of the Order required radio station licensees to provide information relative to implementation of interim hybrid digital operations. Implementation of hybrid digital operations is entirely voluntary. Commercial and noncommercial AM and FM radio stations that choose to begin hybrid digital transmissions shall notify the Commission within 10 days of the commencement of digital operations. The "notification letter" shall certify that the digital operations conform to applicable rules and standards. Furthermore, implementation of the notification letter eliminates both the need for the FCC staff to issue an STA to the broadcaster and for the broadcaster to file and pay the initial and any subsequent filing fees.
