V. Commission's Findings and Order Granting Accelerated Approval of a Proposed Rule Change

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.⁷ In particular, the Commission finds that the proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act,⁸ which requires, among other things, that the Exchange's rules be designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market a national market system, and in general, to protect investors and the public interest. The Commission agrees with the Exchange that the Step-Up order type is a functionality that is not required under the Act.⁹

The Commission finds good cause, pursuant to Section 19(b)(2) of the Act,¹⁰ for approving the proposed rule change prior to the 30th day after publication of notice in the **Federal Register**. Accelerated approval will allow the Exchange to delete references to an order type in its rules that is not required under the Act and that the Exchange has determined to discontinue.

VI. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (SR-EDGA-2011-07) is hereby approved on an accelerated basis.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

Deputy Secretary.
