following web address: <http://www.nawcwpns.navy.mil/~pmeis>.

SUPPLEMENTARY INFORMATION: The Navy has prepared and filed with the EPA the DEIS/OEIS for the NAWCWPNS Point Mugu Sea Range in accordance with the requirements of the National Environmental Policy Act of 1969 (42 USC Sections 4321-4345) and its implementing regulations (40 CFR Parts 1500 to 1508). The DEIS/OEIS also was prepared in accordance with the Executive Order 12114 (Environmental Effects Abroad of Major Federal Actions).

A Notice of Intent for this EIS was published in the **Federal Register** on July 25, 1997 (62 FR 40061). Five public scoping meetings were held in Oxnard, California; Camarillo, California; Ventura, California; Santa Monica, California; and Santa Barbara, California, between August 21 and August 27, 1997.

The NAWCWPNS Point Mugu Sea Range currently supports test and evaluation of sea, land, and air weapons systems, fleet training exercises, small-scale amphibious warfare training, and special warfare training. The proposed action is to continue these test and training activities on the Sea Range. The proposed action would also accommodate Theater Missile Defense (TMD) test and training, an increase in the current level of both Fleet training exercises and special warfare training, and facilities modernization at NAS Point Mugu and San Nicolas Island. The TMD test and training would include four distinct types of events: (a) Boost phase intercept (up to three events per year); (b) upper tier (up to three events per year); (c) lower tier (up to three events per year); and (d) nearshore intercept events at San Nicolas Island (up to eight events per year). One additional Fleet training exercise per year would be accommodated at the Sea Range as well as two additional special warfare exercises per year. The facilities modernization at NAS Point Mugu would involve the use of two existing launch pads to serve as new launch locations. At San Nicolas Island, a missile launcher, a vertical launcher, a new range support building, and five multiple-purpose instrumentation sites would be constructed.

The DEIS/OEIS addresses the potential effects of the proposed action on geology and soils, air quality, noise, water quality, fish and sea turtles, marine mammals, terrestrial biology, cultural resources, land use, socioeconomics, hazardous and nonhazardous materials, and public safety.

Alternatives developed and analyzed in the DEIS/OEIS include: the Preferred Alternative as described above; the No Action Alternative, in which current test and training operations would continue but increased testing and training on the Sea Range and associated facilities modernization at NAS Point Mugu and San Nicolas Island would not be accommodated; and the Minimum Components Alternative. The Minimum Components Alternative would continue current test and training operations and accommodate eight TMD nearshore intercept events, one additional fleet training exercise per year, and construction of five multiple-purpose instrumentation sites on San Nicolas Island. The proposed action is the preferred alternative because it best meets the project's purpose and need.

The DEIS has been distributed to various Federal, state, local agencies, elected officials, special interest groups, and public libraries. Complete copies of the document are available for public review at the following eight information repositories:

At each hearing location, information poster stations will be available from 6:00 p.m. to 7:00 p.m., followed by the official hearing beginning at 7:00 p.m. and ending at 9:00 p.m. Navy representatives will be available at the hearings to receive information and comments from agencies and the public regarding issues of concern. Federal, state, local agencies, and interested parties are invited and urged to be

present or represented at the hearing. Oral statements will be heard and transcribed by a stenographer.

To assure accuracy of the record, all statements should be submitted in writing. All statements, both oral and written, will become part of the public record for the DEIS/OEIS. Equal weight will be given to both oral and written comments. In the interest of available time, each speaker will be asked to limit oral comments to four minutes. Each individual may speak only once, and combining speaking times will not be permitted. Longer comments should be summarized at the public hearings and submitted in writing either at the hearings or mailed to Naval Air Warfare Center Weapons Division, Point Mugu Sea Range EIS, 521 9th Street, Point Mugu, CA 93042-5001 (Attn: Ms. Gina Smith, Code 8G0000E, facsimile (805) 989-0143). AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before September 29, 2000.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing

proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
