Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Multi-Site Evaluation of the Safe Schools/Healthy Students (SS/HS) State Program—NEW

The Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Mental Health Services (CMHS) will conduct the multi-site evaluation of the Safe Schools/Healthy Students (SS/HS) state program. The data collected through the multi-site evaluation addresses three study components: (1) The planning, collaboration, and partnership study; (2) the implementation study; and (3) the workforce study.

The SS/HS state program funded grantees in seven states beginning in September 2013. Data will be collected from state/tribal administrators, Local Education Authorities (LEAs)/Districts,

local program staff (e.g., school resource officers, teachers and administrators, and psychologists) and program partners (e.g., parents, representatives from the juvenile justice and mental health providers).

Data collection activities will include key informant interviews, and web-based surveys. The instruments to be used for data collection are as follows:

Planning, Collaboration and Partnership Study

- State Key Informant Interview Protocol
- District Key Informant Interview Protocol
- State Collaborator Survey
- District Collaborator Survey
- State Collaboration Indicator Data Instrument
- District Collaboration Indicator Data Instrument

Implementation Study

- State & District Key Informant Interview Protocol
- School-Level Survey

Workforce Study

- No additional instruments will be used for this study. Data will be gathered from the Planning, Collaboration and Partnership Study and the Implementation Study.

A summary table of the number of respondents and respondent burden has also been included.

Data Collection Activities for MSE Grantees

Data for all instruments will be collected annually with the exception of data for the state and District Collaboration Indicator Data Instrument which will be collected quarterly.

State Key Informant Interview (Planning, Collaboration and Partnership Study)

The key informant interview protocol will collect information on the service model, partnerships and interagency collaboration, program implementation fidelity, plan deviations, and state and local policy development at the state level. Interviews will also include questions to learn about opportunities that were provided for workforce training. Responses will be compared over time to assess positive development of the program model, emerging barriers and facilitators to implementation, and evolving solutions. On average, 14 state administrators will be interviewed annually and the duration of the interview is estimated to be one hour.
