BILLING CODE 5001-06-P

DEPARTMENT OF ENERGY

Notice of Class Deviation Approval

AGENCY: National Energy Technology Laboratory, Department of Energy.

ACTION: Notice of class deviation approval.

SUMMARY: This notice announces the approval of a Class Deviation to the regulations at 10 CFR part 600. The Department is publicizing notice of the Class Deviation approval to satisfy the requirements of 10 CFR 600.4(d). The effect of this action is that the Department may require the submission of monthly performance reports on projects selected under the Clean Coal Power Initiative—Round 3 Funding Opportunity Announcement.

FOR FURTHER INFORMATION CONTACT: Brittley Robbins at (412) 386-5430.

SUPPLEMENTARY INFORMATION: Under the relevant Subparts of the Department of Energy's Financial Assistance Regulations, which prescribe performance reporting, 10 CFR 600.151, 240, and 341, reporting shall not be required more frequently than quarterly or less frequently than annually. For projects selected under the Clean Coal Power Initiative—Round 3 (CCPI-3) Funding Opportunity Announcement, the Department determined that quarterly reporting was insufficient to adequately monitor progress and assess risk as they do not provide current information, and do not allow the Department to identify and address problems in a timely manner. Projects selected under the CCPI-3 Announcement will be commercial scale demonstration projects which are inherently complex, integrating novel carbon capture technology into commercial operations of a coal-fired power generation facility, which will in turn be integrated with a large-scale sequestration facility. All demonstration projects under the Clean Coal Power Initiative Program carry an inherent degree of risk because they incorporate innovative technology, either being introduced for the first time or in an untried configuration at the commercial scale.

To ensure that cooperative agreements awarded under the Clean Coal Power Initiative—Round 3 Funding Opportunity Announcement meet their objectives on schedule and within budget, the Department pursued a Class Deviation from the regulations at 10 CFR 600.151, 240, and 341 to allow for monthly performance reporting.

On April 8, 2008, the Office of Management and Budget approved the Department's request for the Class Deviation.

Issued in Pittsburgh, PA on September 10, 2009.

Raymond D. Johnson,
Contracting Officer.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2009-0447; FRL-8958-2]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Emission Guidelines and Compliance Times for Small Municipal Waste Combustion Units Constructed on or Before August 30, 1999 (Renewal), EPA ICR Number 1901.04, OMB Control Number 2060-0424

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before October 19, 2009.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2009-0447, to (1) EPA online using www.regulations.gov (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, Mail Code 28221T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at:

Office of Information and Regulatory Affairs, Office of Management and Budget, *Attention:* Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Rebecca Kane, Compliance Assessment and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; *telephone number:* (202) 564-5960; *fax number:* (202) 564-0050; *e-mail address:* kane.rebecca@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On July 8, 2009 (74 FR 32580), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2009-0447, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NSPS for Emission Guidelines and Compliance Times for Small Municipal Waste Combustion Units

Constructed on or Before August 30, 1999 (Renewal).

ICR Numbers: EPA ICR Number 1901.04, OMB Control Number 2060-0424.

ICR Status: This ICR is scheduled to expire on October 31, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: These emission guidelines apply to small municipal waste combustors (MWCs) constructed on or before August 30, 1999, that combust greater than 35 tons per day (tpd) but less than 250 tpd of municipal solid waste. The emission guidelines regulate organics (dioxin/furans), metals (cadmium, lead, mercury, and particulate matter), and acid gases (hydrogen chloride, sulfur dioxide, and nitrogen oxides). The emission guidelines require initial reports, semiannual reports, and annual reports. Owners or operators also are required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility or any period during which the monitoring system is inoperative. Owners or operators subject to these regulations are required to maintain records of measurements and reports for at least five years.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1,709 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose, or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently

changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Small Municipal Waste Combustors.

Estimated Number of Respondents: 23.

Frequency of Response: Initially, semiannually, annually, and on occasion.

Estimated Total Annual Hour Burden: 100,854.

Estimated Total Annual Cost: \$9,578,726, which is comprised of \$8,541,926 in labor costs, operation and maintenance costs of \$1,036,800, and no capital/start-up costs.

Changes in the Estimates: There is no change to the hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. Since there are no changes in the regulatory requirements and there is no significant industry growth, the labor hours and cost figures used in the previous ICR are also used in this ICR.

Dated: September 10, 2009.

John Moses,

Director, Collection Strategies Division.
