Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and approval; Comment Request; Charter Online Management and Performance System (COMPS) Developer Grant Profiles

AGENCY: Office of Elementary and Secondary Education (OESE), Department of Education (ED).

ACTION: Notice

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing a new information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before December 20, 2023.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be submitted within 30 days of publication of this notice. FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Stephanie Jones, (202) 453–7498.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Title of Collection: Charter Online Management and Performance System (COMPS) Developer Grant Profiles.

OMB Control Number: 1810–NEW.

Type of Review: New ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 40.

Total Estimated Number of Annual Burden Hours: 320.

Abstract: This request is for a new OMB approval to collect the Grant Profile data from Charter School Programs (CSP) Developer grantees.

The Charter School Programs (CSP) was originally authorized under title V, Part B, subpart 1, sections 5201 through 5211 of the Elementary and Secondary Education Act (ESEA) of 1965, as amended by the No Child Left Behind (NCLB) Act of 2001. For fiscal year 2017 and thereafter, ESEA has been amended by the Every Student Succeeds Act (ESSA), (20 U.S.C. 7221i), which reserves funds to improve education by supporting innovation in public education and to: (1) provide financial assistance for the planning, program design, and initial implementation of charter schools; (2) increase the number of high-quality charter schools available to students across the United States; (3) evaluate the impact of charter schools on student achievement, families, and communities, and share best practices between charter schools and other public schools; (4) encourage States to provide support to charter schools for facilities financing in an amount more nearly commensurate to the amount States typically provide for traditional public schools; (5) expand opportunities for children with disabilities, English learners, and other traditionally underserved students to attend charter

schools and meet the challenging State academic standards; (6) support efforts to strengthen the charter school authorizing process to improve performance management, including transparency, oversight and monitoring (including financial audits), and evaluation of such schools; and (7) support quality, accountability, and transparency in the operational performance of all authorized public chartering agencies, including State educational agencies, local educational agencies, and other authorizing entities.

The U.S. Department of Education (ED) is requesting authorization to collect data from CSP grantees within the Developer program through a new online platform. In 2022, ED began development of a new data collection system, the Charter Online Management and Performance System (COMPS), designed specifically to reduce the burden of reporting for users and increase validity of the overall data. This new collection consists of questions responsive to the actions established in the program's final rule published in the **Federal Register** on July 6, 2022, as well as the Developer program Notice Inviting Applications (NIA). This collection request is a consolidation of all previously established program data collection efforts and provides a more comprehensive representation of grantee performance.

Federal Energy Regulatory Commission

[Docket No. CP24-1-000]

Cameron Interstate Pipeline, LLC; Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Holbrook Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental document, that will discuss the environmental impacts of the Holbrook Expansion Project involving construction and operation of facilities by Cameron Interstate Pipeline, LLC (CIP) in Calcasieu Parish, Louisiana. The Commission will use this environmental document in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies regarding the project. As part of the National Environmental Policy Act (NEPA) review process, the Commission takes into account concerns the public may have about proposals and the environmental impacts that could result from its action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. This gathering of public input is referred to as "scoping." The main goal of the scoping process is to focus the analysis in the environmental document on the important environmental issues. Additional information about the Commission's NEPA process is described below in the *NEPA Process and Environmental Document* section of this notice.

By this notice, the Commission requests public comments on the scope of issues to address in the environmental document. To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on December 13, 2023. Comments may be submitted in written form. Further details on how to submit comments are provided in the *Public Participation* section of this notice.

Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to
