Dicloran (DCNA); Amendments To Terminate Uses for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's final order for the amendments to terminate uses on geraniums and hydrangeas, voluntarily requested by the registrant, and accepted by the Agency, of products containing dicloran (DCNA), pursuant to section 6(f)(1) of

the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a May 5, 2021 **Federal Register** Notice of Receipt of Requests from the registrant listed in Table 2 of Unit II. to voluntarily cancel product use on geraniums and hydrangeas for these product registrations. These are not the only products containing this pesticide registered for use in the United States. In the May 5, 2021 notice, EPA indicated that it would issue an order implementing the amendment to terminate use, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrant withdrew their request. The Agency did not receive any comments on the notice. Further, the registrant did not withdraw their request. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested amendment to terminate DCNA use on geranium and hydrangeas. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The amendment is effective October 29, 2021.

Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment on May 5, 2021. The comment period closed on June 4, 2021.

VI. Provisions for Disposition of Existing Stocks

For the products 10163–189, 10163–226, and 10163–329, once EPA has approved the product label reflecting the requested amendments to delete specific uses, the registrants will be permitted to sell or distribute the product under the previously approved labeling for a period of 18 months after the date of **Federal Register** publication of the cancellation order, unless other restrictions have been imposed. Thereafter, the registrant will be prohibited from selling or distributing the product whose label includes the deleted uses identified in Table 2 of Unit II., except for export consistent with FIFRA section 17 or for proper disposal.
