

Information on the proposed action will also be posted on the forest Web site, <http://www.fs.fed.us/r5.shastatrinity/projects>, and advertised in the Mt. Shasta Herald. A field trip will be held for interested parties in May of 2005. This notice of intent intimates the scoping process, which guides the development of the environmental impact statement. Comments submitted during this scoping process should be in writing and should be specific to the proposed action. The comments should describe as clearly and completely as possible any issue the commenter has with the proposal. The scoping process includes:

- (a) Identifying potential issues.
- (b) Identifying issues to be analyzed in depth.
- (c) Eliminating non-significant issues or those previously covered by a relevant previous environmental analysis.
- (d) Exploring additional alternatives.
- (e) Identifying potential environmental effects of the proposed action and alternatives.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**. The Forest Service believes it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. (*Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978)). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be dismissed by the courts. (*City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980)). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period thus ensuring substantive comments and objections are available to the Forest Service at a time when it can meaningfully consider them and

respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.
