

necessary to make intelligent and informed marketing decisions.

Need and Use of the Information: The information collected and recordkeeping requirements will serve as the basis for livestock and livestock product market news reports utilized by the industry for marketing purposes. The reports are used by other

Government agencies to evaluate market conditions and calculate price levels. Economists at major agricultural colleges and universities use the reports to make short and long-term market projections. The information is reported up to three times daily and once weekly and is only available directly from those entities required to report under the Act.

Description of Respondents: Business or other for-profit.

Number of Respondents: 116.

Frequency of Responses: Reporting; Weekly; Other (Daily).

Total Burden Hours: 24,006.

SUPPLEMENTARY INFORMATION:

Title: In-Home Food Safety Behaviors and Consumer Education: Web-based Survey.

Type of Request: New information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53) as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*) and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS's Office of Public Affairs and Consumer Education (OPACE) develops consumer education programs concerning the safe handling, preparation, and storage of meat, poultry, and processed egg products, so as to improve consumer food handling behaviors and minimize the incidence of foodborne illness. OPACE shares its food safety messages through The *Food Safe Families* campaign (a cooperative

effort of USDA, Food and Drug Administration [FDA], and Centers for Disease Control and Prevention [CDC]); social media; AskKaren (an online database of frequently asked food safety questions); the FSIS website; *FoodSafety.gov* (the cross-federal website operated by FSIS, FDA and CDC used to promote safe food handling to consumers); the Meat and Poultry Hotline; and various publications and events. These messages are focused on the four core food safety behaviors: Clean, separate, cook, and chill.

By testing planned and tailoring existing communication programs and materials, FSIS can help to ensure that it is effectively communicating with the public to improve consumer food safety practices. As part of ongoing activities by OPACE to develop and evaluate its public health education and communication activities, FSIS is requesting approval for a new information collection to conduct exploratory Web-based surveys of consumers. Findings from these surveys will provide information about how FSIS communication programs and materials affect consumer understanding of recommended safe food handling practices, as well as insight into how to effectively inform consumers about recommended practices. The findings will be used to enhance communication programs and materials to improve consumers' food safety behaviors and help prevent foodborne illness. Additionally, this research will provide useful information for tracking progress toward the goals outlined in the FSIS Fiscal Years 2017-2021 Strategic Plan.

FSIS has contracted with RTI International to conduct two iterations of a web-based survey. The first survey will be conducted in Fiscal Year (FY) 2019 and the second survey will be conducted in FY 2021. Each iteration of the exploratory survey will collect information from 2,400 randomly selected English-speaking adult members of a probability-based Web-enabled research panel maintained by a subcontractor.

The survey is designed to be representative of the U.S. adult population. This representation is achieved through address-based sampling (ABS), where every U.S. adult with an address (including those who do not have a landline phone number) has an equal probability of being selected for participation on the panel. A random sample of individuals will be selected from the panel for participation in the survey. A pilot will be conducted before the survey to test the survey instrument and procedures.

The first iteration of the survey will collect information on consumer use of and response to the Meat and Poultry Hotline, consumer awareness of The Food Safe Families campaign, and consumer behaviors for preparing raw meat and poultry products. The topics for the second iteration of the survey have not been determined and will ultimately inform OPA's activities to develop and evaluate its public health

education and communication activities.

Estimate of Burden: The total estimated burden for each iteration of the survey is 978.2 hours, for a total burden of 1,956.4 hours. To achieve 80 completed surveys during the pretest, 146 randomly selected panel members will be invited via email to take the survey. To achieve 2,400 completed surveys during the full-scale study,

4,400 randomly selected panel members will be invited via email to take the survey. Therefore, a total of 4,546 (146 + 4,400) will be invited to participate in both the pretest and the full-scale study for each iteration of the survey. The invitation email for the pretest and the full-scale survey is expected to take 2 minutes (0.03333 hour). Each survey is expected to take 20 minutes (0.33333 hours) to complete.

Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS also will also announce and provide a link to it through the FSIS *Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public

meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Constituent Update* is available on the FSIS web page. Through the web page, FSIS can provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves and have the option to password protect their accounts.

SUPPLEMENTARY INFORMATION:

Title: Importation and Transportation of Meat, Poultry, and Egg Products.

OMB Control Number: 0583-0094.

Expiration Date: 06/30/2019.

Type of Request: Renewal of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53) as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*) and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting renewal of the information collection regarding the importation and transportation of meat, poultry, and egg products. The approval for this information collection will expire on June 30, 2019. FSIS is making no changes to the approved collection.

This information collection includes (1) foreign inspection certificates from foreign countries required by FSIS to export meat, poultry, and egg products to the United States (9 CFR 327.2 and 381.196); (2) documentation required by FSIS from official import establishments to pre-stamp imported product with the inspection legend before reinspection is complete (9 CFR 327.10(d) and 381.204(f)); and (3) documentation required from official establishments to transport meat and poultry shipments under seal (FSIS Form 7350-1, Request and Notice of Shipment of Sealed Meat and Poultry) (9 CFR 325.5).

(1) Foreign countries that wish to export meat, poultry, and egg products to the United States must establish eligibility to do so by putting in place inspection systems that are "equivalent to" the U.S. inspection system (9 CFR 327.2 and 381.196) and by annually certifying that they continue to do so. Meat, poultry, and egg products intended for importation into the U.S. must be accompanied by an inspection certificate signed by an official of the foreign government responsible for the inspection and certification of the product (9 CFR 327.4, 381.197, and 590.915).

(2) Import establishments that wish to pre-stamp imported product with the inspection legend before FSIS inspection is complete must submit a letter to FSIS that explains and requests approval for the establishment's pre-stamping procedure (9 CFR 327.10(d) and 381.204(f)).

(3) Unless accounted for in an establishment's HACCP plan, meat and poultry products that do not bear the mark of inspection and that are to be shipped from one official establishment to another for further processing must be transported under USDA seal to prevent such unmarked product from entering into commerce (9 CFR 325.5). To track product shipped under seal, FSIS requires the shipping establishment to complete FSIS Form 7350-1, which identifies the type, amount, and weight of the product.

FSIS has made the following estimates based on an information collection assessment.

Estimate of Burden: FSIS estimates that it takes each respondent an average of 29.6 hours per year to complete the foreign inspection certificates, pre-stamp documentation, and documentation required to transport meat and poultry shipments.

Respondents: Importers, establishments, foreign governments.

Estimated Number of Respondents: 136.
