

capital or operation & maintenance costs.

Changes in Estimates: There is no change in the estimated respondent burden compared with the ICR currently approved by OMB. There was only a slight increase in the number of Conflicts of Interest Plans during the past three (3) years. In the previous filing, there were 56 required COI plans, but in the current filing there are 61 required COI plans.

Pamela Legare,

Director, Office of Acquisition Solutions.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Hazardous Remediation Waste Management Requirements (HWIR) Contaminated Media (Renewal)

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Hazardous Remediation Waste Management Requirements (HWIR) Contaminated Media (EPA ICR Number 1775.10, OMB Control Number 2050–0161) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 31, 2025. Public comments were previously requested via the **Federal Register** on October 7, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before June 23, 2025.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA–HQ–OLEM–2018–0543, to EPA online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, U.S. Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Avenue NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats,

information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Peggy Vyas, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202–566–0453; vyas.peggy@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through May 31, 2025. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on October 7, 2024 during a 60-day comment period (89 FR 81075). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave., NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The Resource Conservation and Recovery Act (RCRA) requires EPA to establish a national regulatory program to ensure that hazardous wastes are managed in a manner that is protective of human health and the environment. Under this program, EPA regulates newly generated hazardous wastes as well as hazardous remediation wastes (*i.e.*, hazardous wastes managed during cleanup). Hazardous remediation waste management sites must comply with all parts of 40 CFR part 264 except subparts B, C, and D. In place of these requirements, they need to comply with performance standards based on the general requirement goals in these sections, which are codified at 40 CFR 264.1(j).

Under § 264.1(j), owners/operators of remediation waste management sites

must develop and maintain procedures to prevent accidents. These procedures must address proper design, construction, maintenance, and operation of hazardous remediation waste management units at the site. In addition, owners/operators must develop and maintain a contingency and emergency plan to control accidents that occur. The plan must explain specifically how to treat, store, and dispose of the hazardous remediation waste in question, and must be implemented immediately whenever fire, explosion, or release of hazardous waste or hazardous waste constituents that could threaten human health or the environment. In addition, the Remedial Action Plan streamlines the permitting process for remediation waste management sites to allow cleanups to take place more quickly.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are the private sector, as well as state, local, or Tribal governments.

Respondent's obligation to respond: Mandatory (RCRA section 3004(u)).

Estimated number of respondents: 178.

Frequency of response: One-time.

Total estimated burden: 5,114 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$422,310 (per year), which includes \$53,486 in annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in burden hours associated with this renewal.

Courtney Kerwin,

Director, Information Engagement Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–12670–01–R9]

Revision of Approved State Primacy Program for the State of California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of approval.

SUMMARY: Notice is hereby given that the State of California revised its approved State primacy program under the Federal Safe Drinking Water Act (SDWA) by adopting regulations that effectuate the Federal Public Water System (PWS) Definition. The Environmental Protection Agency (EPA) has determined that California's

revision request meets the applicable SDWA program revision requirements and the regulations adopted by California are no less stringent than the corresponding Federal regulations. Therefore, EPA approves this revision to California's approved State primacy program. However, this determination on California's request for approval of a program revision shall take effect in accordance with the procedures described below in the **SUPPLEMENTARY INFORMATION** section of this document after the opportunity to request a public hearing.

DATES: A request for a public hearing must be received or postmarked before June 23, 2025.

ADDRESSES: Documents relating to this determination that were submitted by California as part of its program revision request are available for public inspection at the following locations:

Redding, CA: 364 Knollcrest Drive, Suite 101, Redding, CA 96002, for an appointment at this location please call (530) 224-4800;

Sacramento, CA: 1001 I Street, Sacramento, CA 95814, for an appointment at this location please call (916) 449-5577;

Fresno, CA: 265 West Bullard Avenue, Suite 101 Fresno, CA 93704, for an appointment at this location please call (559) 447-3300; or

Glendale, CA: 500 North Central Avenue, Suite 500, Glendale, CA 91203, for an appointment at this location please call (818) 551-2004.

Documents may also be provided by email by submitting a request to DDWRegUnit@waterboards.ca.gov.

FOR FURTHER INFORMATION CONTACT: Daria Evans-Walker, EPA Region 9, Drinking Water Section; via telephone at (415) 972-3451 or via email address at evans-walker.daria@epa.gov.

SUPPLEMENTARY INFORMATION:

Background. EPA approved California's initial application for primary enforcement authority ("primacy") of drinking water systems on June 9, 1978 (43 FR 25180). Since initial primacy approval, EPA has approved various revisions to California's primacy program. For the revision covered by this action, EPA promulgated rules incorporating the PWS Definition as a requirement of primacy at 40 CFR 141.2 on April 28, 1998 (63 FR 23362) and EPA issued guidance on the PWS definition on August 5, 1998 (63 FR 41940). EPA has determined that California has adopted into state law PWS Definition requirements that are comparable to and no less stringent than the Federal

requirements. EPA has also determined that the State's program revision request meets all of the regulatory requirements for approval, as set forth in 40 CFR 142.12, including a side-by-side comparison of the Federal requirements demonstrating the corresponding State authorities, additional materials to support special primacy requirements of 40 CFR 142.16, a review of the requirements contained in 40 CFR 142.10 necessary for States to attain and retain primary enforcement responsibility, and a statement by the California Attorney General certifying that California's laws and regulations to carry out the program revision were duly adopted and are enforceable. The Attorney General's statement also affirms that there are no environmental audit privilege and immunity laws that would impact California's ability to implement or enforce the California laws and regulations pertaining to the program revision. Therefore, EPA approves this revision of California's approved State primacy program. The Technical Support Document, which provides EPA's analysis of California's program revision request, is available by submitting a request to the following email address: R9dw-program@epa.gov. Please note "Technical Support Document" in the subject line of the email.

Public Process. Any interested person may request a public hearing on this determination. A request for a public hearing must be received or postmarked before June 23, 2025 and addressed to the Regional Administrator of EPA Region 9, via the following email address: R9dw-program@epa.gov, or by contacting the EPA Region 9 contact person listed above in this notice by telephone if you do not have access to email. Please note "State Program Revision Determination" in the subject line of the email. The Regional Administrator may deny frivolous or insubstantial requests for a hearing. If a timely request for a public hearing is made, then EPA Region 9 may hold a public hearing. Any request for a public hearing shall include the following information: 1. The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; 2. A brief statement of the requesting person's interest in the Regional Administrator's determination and of information that the requesting person intends to submit at such hearing; and 3. The signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the

signature of a responsible official of the organization or other entity.

If EPA Region 9 does not receive a timely request for a hearing or a request for a hearing was denied by the Regional Administrator for being frivolous or insubstantial, and the Regional Administrator does not elect to hold a hearing on their own motion, EPA's approval shall become final and effective on June 23, 2025, and no further public notice will be issued.

Authority: Section 1413 of the Safe Drinking Water Act, as amended, 42 U.S.C. 300g-2 (1996), and 40 CFR part 142 of the National Primary Drinking Water Regulations.

Dated: April 18, 2025.

Joshua F.W. Cook,

Regional Administrator, EPA Region 9.
