

On June 24, 2019, the U.S. Trade Representative established a process by which stakeholders could request exclusion of particular products classified within an eight-digit HTSUS subheading covered by the \$200 billion action from the additional duties. *See* 84 FR 29576. In August 2019, the U.S. Trade Representative granted an initial set of exclusion requests. *See* 84 FR 38717. The U.S. Trade Representative granted additional exclusions in September, October, November and December 2019, and January, February, March, April and May 2020. *See* 84 FR 49591; 84 FR 57803; 84 FR 61674; 84 FR 65882; 84 FR 69012; 85 FR 549; 85 FR 6674; 85 FR 9921; 85 FR 15015; 85 FR 17158; 85 FR 23122; 85 FR 27489; and 85 FR 32094.

Published exclusions under the \$200 billion action were to apply as of September 24, 2018, the effective date of the \$200 billion action, and extend to August 7, 2020. However, the implementing language used in the exclusions notices did not include a reference to HTSUS heading 9903.88.09 and therefore did not have the effect of excluding products that were exported before May 10, 2019, and entered into the United States on or after May 10, 2019, and before June 15, 2019. The annex to this notice makes a technical correction to the exclusions granted under the \$200 billion action to include HTSUS heading 9903.88.09. Like all exclusions under this Section 301 investigation, this technical correction applies to entries of goods that are not liquidated or to entries that are liquidated but not final.

#### Annex

The solar facility will be built on three on airport sites, totaling 15.5 acres, and will produce 6 mW of energy. The power produced will go into the electrical grid, however, the airport will have a long term land lease with the solar utility, generating a long term revenue stream for the airport. The lease revenue will be placed in the airport's operating and maintenance fund. The municipal water tank will serve the community as well as the airport, significantly enhancing the existing airport water system and serve future development on the airport as well.
