SUPPLEMENTARY INFORMATION:

Public Participation

Interested persons are invited to participate in this rulemaking by submitting written data, views, or arguments on the NPRM. Comments that will provide the most assistance to CBP will reference a specific portion of the NPRM, explain the reason for any recommended change, and include data, information, or authority that support such recommended change.

Background

The Department of Homeland Security (DHS) is required by statute to develop and implement an integrated, automated entry and exit data system to match records, including biographic data and biometrics, of aliens entering and departing the United States. Although the current regulations provide that DHS may require certain aliens to provide biometrics when entering and departing the United States, they only authorize DHS to require certain aliens to provide biometrics upon departure under pilot programs at land ports and at up to 15 airports and seaports. To advance the legal framework for DHS to begin a comprehensive biometric entry-exit system, DHS is proposing to amend the regulations to remove the references to pilot programs and the port limitation to permit collection of biometrics from aliens departing from airports, land ports, seaports, or any other authorized point of departure. In addition, to enable U.S. Customs and Border Protection (CBP) to make the process for verifying the identity of aliens more

efficient, accurate, and secure by using facial recognition technology, DHS is proposing to amend the regulations to provide that all aliens may be required to be photographed upon entry and/or departure. U.S. citizens may voluntarily opt out of participating in CBP’s biometric verification program. The NPRM also makes other minor conforming and editorial changes to the regulations. For more detailed information on all of the proposed changes, see the NPRM published on November 19, 2020 at 85 FR 74162.

Based on the comments received, CBP is re-opening the comment period to allow for additional comments to be submitted on the NPRM. Comments must be received on or before March 12, 2021.

Dated: February 4, 2021.

William A. Ferrara,

Executive Assistant Commissioner, Office of Field Operations, U.S. Customs and Border Protection.
