RIN 1904-AF14

Energy Conservation Program: Product Classes for Residential Dishwashers, Residential Clothes Washers, and Consumer Clothes Dryers

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Final rule.

SUMMARY: On October 30, 2020, and December 16, 2020, the U.S. Department of Energy ("DOE") published two final rules that established product classes for residential dishwashers with a cycle time for the normal cycle of 60 minutes or less, top-loading residential clothes washers and certain classes of consumer clothes dryers with a cycle time of less than 30 minutes, and front-loading residential clothes washers with a cycle time of less than 45 minutes ("short-cycle product classes"). The rules resulted in amended energy conservation standards for these short-cycle product classes, without determining whether relevant statutory criteria for amending standards were met. On August 11, 2021, DOE published a notice of proposed rulemaking ("NOPR") to withdraw these short-cycle product classes. This final rule finalizes the revocation of the two earlier rules that improperly promulgated standards for these new product classes and reinstates the prior product classes and applicable standards for these covered products.

DATES: The effective date of this rule is February 18, 2022.

ADDRESSES: The docket for this rulemaking, which includes **Federal Register** notices, public meeting attendee lists and transcripts, comments, and other supporting documents/materials, is available for review at www.regulations.gov. All documents in the docket are listed in the www.regulations.gov index. However, not all documents listed in the index may be publicly available, such as information that is exempt from public disclosure.
