

accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Financial Status and Program Performance Final Report for State and Partnership for the Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP).

OMB Control Number: 1840-0782.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 125.

Total Estimated Number of Annual Burden Hours: 5,625.

Abstract: The purpose of this information collection is to determine whether recipients of Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) have made substantial progress towards meeting the objectives of their respective projects, as outlined in their grant applications and/or subsequent work plans. In addition, the final report will enable the Department to evaluate each grant project's fiscal operations for the entire grant performance period, and compare total expenditures relative to federal funds awarded, and actual cost-share/matching relative to the total amount in the approved grant application. This report is a means for grantees to share the overall experience of their projects and document achievements and concerns, and

describe effects of their projects on participants being served; project barriers and major accomplishments; and evidence of sustainability. The report will be GEAR UP's primary method to collect/analyze data on students' high school graduation and immediate college enrollment rates.

Summary of Changes

If grantees choose to serve students for 7 years, they must report on the 7th year of activities which include following GEAR UP students into the first year of postsecondary education and any students still in high school. The 5 hour burden increase is due to the additional time required to collect data on GEAR UP students enrolled in postsecondary education.

Title of Collection: Charter School Authorizer Annual Update.

OMB Control Number: 1855-0023.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 90.

Total Estimated Number of Annual Burden Hours: 2,025.

Abstract: The U.S. Department of Education (ED) has as one of its important policy goals expanding the number of high-quality public school choice options. Specifically, according to Part B section 5201 of the Elementary and Secondary Education Act, two of the established purposes of the

Charter School Program office are: evaluating the effects of charter schools, including the effects on students,

student academic achievement, staff and parents, and expanding the number of high-quality charter schools available to students across the nation.

Charter school authorization is at the very crux of any efforts to expand and ensure high-quality public school choice options through public charter schools because charter school authorizers are the public entities primarily responsible for: initial charter authorizations, on-going monitoring and oversight, and charter renewal and closure decisions.

Currently, there is no other comprehensive national database of the roughly 900 charter school authorizers complete with the schools under their authority; some of these data elements are available from public documents, but they are not made available to the public consistently across all authorizers. There is also no other comprehensive, fully-populated tool for tracking the activities of and evaluating the quality of authorizers nationwide based on their authorizing decisions in light of schools performance. This data collection will be administered to the all charter school authorizers.
