

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before July 13, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–1056.

Title: Application for International Broadcast Station License.

Form No.: FCC Form 421–IB.

Type of Review: Extension of a currently approved information collection.

Respondents: Business or other for-profit.

Number of Respondents: 10 respondents; 10 responses.

Estimated Time per Response: 6 hour per response.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory

authority for this information collection is contained in section 325(c) of the Communications Act of 1934, as amended.

Total Annual Burden: 60 hours.

Annual Cost Burden: \$40,500.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

In general, there is no need for confidentiality with this collection of information.

Needs and Uses: This collection will be submitted to the Office of Management and Budget (OMB) as an extension following the 60-day comment period in order to obtain the full three-year clearance from OMB.

The Federal Communications Commission (“Commission”) plans to implement and release to the public an “Application for an International Broadcast Station License” (FCC Form 421–IB). The FCC Form 421–IB will be used by applicants to request licenses to operate international broadcast stations. The FCC Form 421–IB has not been implemented yet due to a lack of budget resources and technical staff. After the form has been implemented and the Commission has obtained final approval from the OMB, applicants will file the FCC Form 421–IB with the Commission in lieu of the “Application for an International, Experimental Television, Experimental Facsimile, or a Developmental Broadcast Station,” (FCC Form 310).

(**Note:** The Commission received approval from the OMB for the FCC Form 310 under OMB Control No 3060–1035). In the interim, applicants will continue to file the FCC Form 310 with the Commission.

The Commission stated previously that the FCC Form 421–IB will be available to applicants in the International Bureau Filing System (“MyIBFS”) after its development. The Commission plans to develop a new Consolidated Licensing System (CLS) that will replace MyIBFS. Therefore, the FCC Form 421–IB will be made available to the public in CLS instead of MyIBFS.

The information collected is used by the Commission to assign frequencies for use by international broadcast stations, to grant authority to operate such stations and to determine if interference or adverse propagation conditions exist that may impact the operation of such stations. If the Commission did not collect this information, it would not be in a position to effectively coordinate spectrum for international broadcasters or to act for entities in times of frequency interference or adverse

propagation conditions. The orderly nature of the provision of international broadcast service would be in jeopardy without the Commission's involvement.

Federal Communications Commission.

Federal Register Liaison Officer, Office of the Secretary, Office of the Managing Director.
