Notice of GSA Live Webinar Regarding Data Center Sustainability

AGENCY: Office of Government-wide Policy (OGP), General Services Administration (GSA).

ACTION: Virtual meeting notice.

SUMMARY: GSA is hosting a Data Center Sustainability Summit to obtain information from federal and industry communities. The summit focuses on the energy, environment, and infrastructure benefits that result from IT modernization and a transition from government-owned data centers to commercially-owned facilities, cloud computing, or software-as-a-service that can help the Federal Government reach its sustainability goals.

DATES: Wednesday, April 6 and Thursday, April 7, 2022, at 10:00 a.m., Eastern Daylight Time (EDT).

ADDRESSES: This is a virtual event and the call-in information will be made available upon registration. All attendees, including industry partners, must register for the ZoomGov event here: https://gsa.zoomgov.com/webinar/register/9816439918053/WN_KkzAepS7TXCqg7gEvcUXRA.

Members of the press, in addition to registering for this event, must also RSVP to press@gsa.gov.

FOR FURTHER INFORMATION CONTACT: Tom Santucci at thomas.santucci@gsa.gov or 202-230-4822.

SUPPLEMENTARY INFORMATION:

Background

The Biden Administration established government-wide sustainability goals in the 2021 Executive Order on Catalyzing Clean Energy Industries and Jobs Through Federal Sustainability (E.O. 14057, located at <https://www.whitehouse.gov/briefing-room/presidential-actions/2021/12/08/executive-order-on-catalyzing-clean-energy-industries-and-jobs-through-federal-sustainability/>) and its accompanying Federal Sustainability Plan (located at <https://www.sustainability.gov/federal-sustainabilityplan/index.html>).

The E.O. communicates five government-wide goals for tackling the climate crisis:

- 100 percent carbon pollution-free electricity by 2030
- 100 percent zero-emission vehicle acquisitions by 2035
- Net-zero emissions from federal procurement no later than 2050
- A net-zero emissions building portfolio by 2045
- Net-zero emissions from overall federal operations by 2050

As the current Data Center Optimization Initiative (DCOI) policy (M-21-05, available here: <https://www.whitehouse.gov/wp-content/uploads/2020/11/M-21-05.pdf>) is set to sunset at the end of Fiscal Year 2022, GSA is interested in obtaining information about sustainability best practices for IT infrastructure that could help inform the development of new DCOI metrics.

Format

The Data Center and Cloud Sustainability and Resiliency Summit convenes leaders from the federal government and industry for an educational forum to discuss how adoption of modern IT solutions is critical to the country's transition to clean, zero-emissions technologies. Additionally, this summit seeks to explore these solutions' additional economic and national security benefits. If you have questions for the panelists about their sustainability initiatives and technologies, submit them via email to dccoi@gsa.gov by COB March 25th, 2022.

Centers for Disease Control and Prevention

[60Day-22-0822; Docket No. CDC-2022-0009]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled, The National Intimate Partner and Sexual Violence Survey (NISVS). NISVS is a surveillance system used to monitor the magnitude of sexual violence, stalking, and intimate partner violence victimization among adults in the U.S.

DATES: CDC must receive written comments on or before May 6, 2022.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2022-0009 by either of the following methods:

- **Federal eRulemaking Portal:**

Regulations.gov. Follow the instructions for submitting comments.

- **Mail:** Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to *regulations.gov*.

Please note: Submit all comments through the Federal eRulemaking portal (*regulations.gov*) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; phone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
5. Assess information collection costs.
