

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Proposed Information Collection; Comment Request; Reporting of Sea Turtle Entanglement in Fishing Gear or Marine Debris**

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before May 26, 2020.

ADDRESSES: Direct all written comments to Adrienne Thomas, PRA Officer, NOAA, 151 Patton Avenue, Room 159, Asheville, NC 28801 (or via the internet at PRAComments@doc.gov). All comments received are part of the public record. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Kate Sampson, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930, (978) 282-8470, kate.sampson@noaa.gov.

SUPPLEMENTARY INFORMATION:**I. Abstract**

NOAA's National Marine Fisheries Service (NMFS) manages the Sea Turtle Disentanglement Network (STDN) to respond to sea turtle entanglement in active or discarded fishing gear (in particular those involving the vertical line of fixed gear fisheries), marine debris, or other line in the marine environment. Entanglement has the potential to cause serious injury or mortality, which would negatively impact the recovery of endangered and threatened sea turtle populations. The STDN is made up of dedicated, trained, and specially-equipped non-profit organizations, state and federal

agencies, and universities. The STDN's goals are to increase reporting, to reduce serious injury and mortality to sea turtles, and to collect information that can be used for mitigation of these threats. Initial reports are provided by radio or phone from a variety of sources, including private and commercial boaters, fishermen, government and state agencies, and even non-profit organizations. Once initial reports are received and the STDN responds to document and, hopefully, release the entangled turtle, information from the initial report and the response are provided via hard copy or electronic entanglement report forms that are later submitted to NOAA Fisheries via electronic mail (most often). As there is limited observer coverage of fixed gear fisheries, the STDN data are invaluable to NMFS in understanding the threat of entanglement and working towards mitigation.

II. Method of Collection

Reports will be submitted on paper (faxed or mailed), by telephone, or electronically.

III. Data

OMB Control Number: 0648-0496.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Individuals or households; Business or other for-profit organizations; Not-for-profit institutions; State, Local, or Tribal government; Federal government.

Estimated Number of Respondents: 116.

Estimated Time per Response: 2 to 2.5 hours per case (78 cases).

Estimated Total Annual Burden Hours: 168.5 hours.

Estimated Total Annual Cost to Public: \$100.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 24, 2020.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[RTID 0648-XA098]

New England Fishery Management Council; Public Hearing

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public hearing via webinar.

SUMMARY: The New England Fishery Management Council's is convening a Public Hearing of Draft Amendment 23 to Northeast Multispecies Fishery via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: Written Public comments must be received on or before, Tuesday, May 19, 2020. This webinar will be held on Wednesday, April 15, 2020 at 4 p.m.

ADDRESSES: All meeting participants and interested parties can register to join the webinar at <https://register.gotowebinar.com/register/8766043774885604099>.

Meeting addresses: The meeting will be held via webinar. See **SUPPLEMENTARY INFORMATION**.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Public comments: Mail to Thomas A. Nies, Executive Director, New England Fishery Management Council, 50 Water Street, Mill #2, Newburyport, MA 01950. Mark the outside of the envelope "DEIS for Amendment 23 to the Northeast Multispecies FMP".

Comments may also be sent via fax to (978) 465-3116 or submitted via email to comments@nefmc.org with “DEIS for Amendment 23 to the Northeast Multispecies FMP” in the subject line.

Agenda

This hearing is the first of the series; the remaining hearings will be announced in a separate notice. Council staff will brief the public on Draft Amendment 23 before receiving comments on the amendment. The hearing will begin promptly at the time indicated above. If all attendees who wish to do so have provided their comments prior to the end time indicated, the hearing may conclude early. To the extent possible, the Council may extend hearings beyond the end time indicated above to accommodate all attendees who wish to speak.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this hearing. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This hearing is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 24, 2020.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Reporting Requirements for the Ocean Salmon Fishery Off the Coasts of Washington, Oregon, and California

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: To ensure consideration, written or on-line comments must be submitted on or before May 26, 2020.

ADDRESSES: Direct all written comments to Adrienne Thomas, PRA Officer, NOAA, 151 Patton Avenue, Room 159, Asheville, NC 28801 (or via the internet at PRAComments@doc.gov). All comments received are part of the public record. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Peggy Mundy, National Marine Fisheries Service (NMFS) West Coast Region, telephone: 206-526-4323; email: peggy.mundy@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection.

Ocean salmon fisheries conducted in the U.S. exclusive economic zone, 3–200 nautical miles off the West Coast states of Washington, Oregon, and California are managed by the Pacific Fishery Management Council (Council) and NOAA's National Marine Fisheries Service (NMFS) under the Magnuson-Stevens Fishery Conservation and Management Act (MSA). Management measures for the ocean salmon fisheries are set annually, consistent with the

Council's Pacific Coast Salmon Fishery Management Plan (FMP). The FMP provides a framework for managing the ocean salmon fisheries in a sustainable manner, as required under the MSA, through the use of conservation objectives, annual catch limits, and other reference points and status determination criteria described in the FMP. To meet these criteria, annual management measures, published in the **Federal Register** by NMFS, specify regulatory areas, catch restrictions, and landing restrictions based on the stock abundance forecasts. These catch and landing restrictions include area- and species-specific quotas for the commercial ocean salmon fishery, and generally require landings to be reported to the appropriate state agencies to allow for a timely and accurate accounting of the season's catch (50 CFR 660.404 and 50 CFR 660.408(o)). The best available catch and effort data and projections are presented by the state fishery managers in telephone conference calls involving the NMFS Northwest Regional Administrator and representatives of the Council. However, NMFS acknowledges that unsafe weather or mechanical problems could prevent commercial fishermen from making their landings at the times and places specified, and the MSA requires conservation and management measures to promote the safety of human life at sea. Therefore, the annual management measures will include provisions to exempt commercial salmon fishermen from compliance with the landing requirements when they experience unsafe weather conditions or mechanical problems at sea, so long as the appropriate notifications are made by, for example, at-sea radio and cellular telephone, and information on catch and other required information is given, under this collection of information. The annual management measures will specify the contents and procedure of the notifications, and the entities receiving the notifications (*e.g.*, U.S. Coast Guard). Absent this requirement by the Council, the state reporting systems would not regularly collect this specific type of in-season radio report. These provisions, and this federal collection of information, promote safety at sea and provide practical utility for sustainably managing the fishery, ensuring regulatory consistency across each state by implementing the same requirements for alternative reporting in unsafe conditions in the surrounding territorial waters. This information collection is intended to be general in scope by leaving the specifics of the notifications
