

In the 14 years since the previous analysis was completed there has been new information and changed circumstances that warrant environmental analysis to see what, if any, changes need to be made to the DPG's and BLM's decisions about oil and gas leasing and whether or not there is a need to change DPG's Land and Resource Management Plan direction relative to oil and gas development on the Little Missouri National Grassland unit of the Dakota Prairie Grasslands. New information and changed circumstances include a change in the manner and pace of oil and gas development and the listing of the Dakota Skipper and Northern Long-Eared Bat as threatened species under the Endangered Species Act (ESA).

DATES: Comments concerning the scope of the analysis must be received by October 1, 2015. The draft supplemental environmental impact statement is expected in November, 2015 and the final supplemental environmental impact statement (SEIS) is expected in February, 2016.

ADDRESSES: Send written comments to Dakota Prairie Grasslands, ATTN: Oil and Gas Development SEIS, 2000 Miriam Circle, Bismarck, ND 58501. Comments may also be sent via email to comments-northern-dpg@fs.fed.us, or via facsimile to 701-989-7299.

FOR FURTHER INFORMATION CONTACT: Karen Dunlap, Resources Staff Officer, at 2000 Miriam Circle, ND 58501, by email at kdunlap@fs.fed.us or by phone at 701-989-7304.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

Given that new circumstances or information may have a bearing on oil and gas leasing on the DPG, there is a need for the DPG and BLM to supplement their analysis to document changes since the 2003 Record of Decision. The purpose of the analysis is to disclose the environmental effects of the changed circumstances and analyze whether or not any different management direction and/or leasing stipulations are necessary to protect National Forest System lands.

Proposed Action

The Dakota Prairie Grasslands is proposing to reevaluate the impacts of the activities permitted in the current Land and Resources Management Plan

(LRMP) to determine if current circumstances have changed the effects. Preliminary internal scoping indicates that existing federal oil and gas operating regulations, current LRMP standards and guidelines, and existing lease stipulations provide the Forest Service with adequate authority to mitigate the effects of reasonably foreseeable oil and gas development that may occur on future federal leases. Consistent with 40 CFR 1502.9(2), the DPG will supplement the 2001 final EIS (FEIS) to consider new information and changed circumstances, including changes in the manner in which oil and gas is being developed in North Dakota. The Forest Service and BLM are in the process of updating the reasonably foreseeable oil and gas development scenario (RFDS) which serves as the basis for effects analysis in the SEIS. When completed, the updated RFDS will be available by request at the address below or online at: <http://www.fs.fed.us/nepa/fs-usda-pop.php/?project=40652>.

Lead and Cooperating Agencies

The USDA Forest Service is the lead federal agency for the preparation of the SEIS and meeting the requirements of the National Environmental Policy Act (NEPA). The preparation of the SEIS will be coordinated with the BLM which will be a cooperating agency.

Responsible Official

Forest Service will be the lead agency for the SEIS. BLM will be a cooperating agency. Dennis Neitzke, Grasslands Supervisor, Dakota Prairie Grasslands, 2000 Miriam Circle, Bismarck, ND 58501 is the responsible official for deciding whether or not changes are necessary to the Forest Service's 2003 decision regarding oil and gas leasing. Jamie Connell, BLM State Director, Montana State Office, is the responsible official for actions and decisions related to BLM's adoption of the SEIS and offering lands for federal leasing.

Nature of Decision To Be Made

Based on the Supplemental EIS, the Grasslands Supervisor will decide whether or not changes need to be made to the 2003 leasing decision and whether the current Dakota Prairie Grasslands LRMP direction needs amendment. The BLM may adopt the SEIS to support its decision to offer lands for federal oil and gas leasing.

Scoping Process

This revised notice of intent initiates a scoping process, which guides the development of the supplemental environmental impact statement. Of

particular use are specific concerns that can help us focus our analysis relative to the effects of reasonably foreseeable development of the oil and gas resource underlying the Dakota Prairie Grasslands.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the supplemental environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agency with the ability to provide the respondent with subsequent environmental documents.

Dated: August 26, 2015.

Dennis Neitzke,

Forest Supervisor.

BILLING CODE 3411-15-P

DEPARTMENT OF COMMERCE

Census Bureau

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau, Commerce.

Title: Federal Statistical System Public Opinion Survey.

OMB Control Number: 0607-0969.

Form Number(s): None.

Type of Request: Regular submission.

Number of Respondents: 44,200.

Average Hours per Response: 0.1666667.

Burden Hours: 7367.

Needs and Uses: These public opinion data will enable the Census Bureau to better understand public perceptions of federal statistical agencies and their products, which will provide guidance for communicating with the public and for future planning of data collection that reflects a good understanding of public perceptions

and concerns. Because all federal statistical agencies are also facing these issues of declining response rates and increasing costs in a time of constrained budgets, the Census Bureau will share the results of these surveys with other federal statistical agencies, to maximize the utility of this information collection and ultimately, the quality and efficiency of federal statistics. Specifically, other federal statistical agencies have expressed interest in continuing this data collection for use in communications strategies within their own agencies.

The Census Bureau plans to add 7 questions to a sample of cases in the Gallup Daily Tracking, which is an ongoing daily survey asking U.S. adults about various political, economic, and well-being topics. The initial 7 questions will allow us to continue the time series begun under the previous study and to add open-ended questions, which will allow us to measure change in the basis of attitudes. The additional questions will allow us to investigate other issues that could be related to trust and other perceptions of the FSS.

The survey methodology for the planned collection is the same as the past collection. It includes sample coverage of the entire United States, including Alaska and Hawaii, and relies on a three-call design to reach respondents not contacted on the initial attempt. The survey methods for the Gallup Daily Tracking rely on live interviews, dual-frame sampling (which includes listed landline interviewing as well as cell phone sampling to reach those in cell phone-only households, cell phone-mostly households, and unlisted landline-only households), and a random selection method for choosing respondents within the household. The Census Bureau will ask questions of 850 respondents a week who participate in the Gallup Daily Tracking through October 31, 2019 via a contract that has a base year and four options years.

Up to 20 additional pulse questions can be added to the nightly survey for a total of 100 days per year. These "pulse" questions will be used for several distinct purposes.

First, additional questions can be added to and removed from the initial set of 7 questions in a series of question "rotations". Rotations will be planned to explore public opinion of different aspects of statistical uses of administrative records. Topics for the additional questions will include knowledge about administrative records use, public perception of the quality of such records, public perception of privacy and confidentiality implications of such use, and differentiation between

types of administrative records and types of statistical uses. These rotations might include introducing or framing the questions differently, varying the types of records mentioned and the methods of use in the question, willingness-to-pay/stated preference questions, and so on. These types of questions would add up to 5 questions in the nightly interview and would be fielded for a limited amount of time surrounding the particular event. These questions will be submitted to OMB by way of update to this submission.

Second, rotating questions will be used to explore awareness of other statistics or other statistical agencies not mentioned in the core questions. For example, we may ask additional questions to explore awareness of specific types of statistics, like health statistics, or agricultural statistics. These types of questions would add up to 3 questions in the nightly interview and would be fielded for a limited amount of time. These questions will also be submitted to OMB by way of update to this submission.

Third, rotating questions will be used to explore opinions towards initiatives, like Bring Your Own Device, that the Census Bureau and other federal statistical agencies are considering adopting. These types of questions would add up to 3 questions in the nightly interview and would be fielded for a limited amount of time. These questions will also be submitted to OMB by way of update to this submission.

Fourth, rotating questions will be used for communications, public relations and similar message testing. Examples of such messages would be different ways of describing confidentiality or privacy protection, or different ways of encouraging response to a survey. These types of questions would add up to 5 questions in the nightly interview and would be fielded for a limited amount of time surrounding the particular event. These questions will also be submitted to OMB by way of update to this submission (specified in more detail below). In general, they would ask things like awareness of the event, and opinions about the relationship (if any) between those events and the federal statistical system.

Finally, we may wish to add rotating questions very quickly after an unanticipated event to gauge awareness of those events and opinions about the relationship (if any) between those events and the federal statistical system. These could be events like a data breach (public or private sector), political scandal, or any other unanticipated news event that may alter public

perceptions. Gallup can add questions with as little as 48 hours notice. Up to 3 additional questions could be fielded in the nightly interview for a limited amount of time surrounding the particular event. These questions would be submitted to OMB for a quick-turn-around approval and would be very limited in scope to address the particular unanticipated event.

OMB and the Census Bureau have agreed that these rotating questions constitute nonsubstantive changes to this submission. OMB will be informed approximately monthly of the intent to make these changes through a single tracking document. This document will contain a complete history of all questions asked and the months that each question was asked.

Although the Gallup Daily Tracking Survey is portrayed by Gallup as being nationally representative, it does not meet Census Bureau quality standards for dissemination and is not intended for use as precise national estimates or distribution as a Census Bureau data product. The Census Bureau will use the results from this survey to monitor awareness and attitudes, as an indicator of the impact of potential negative events, and as an indicator of potential changes in awareness activities. Although the response rate to the survey is insufficiently high to be used for point estimation, the results are expected to provide useful information for describing general trends and for modeling opinions. Data from the research will be included in research reports with clear statements about the limitations and that the data were produced for strategic and tactical decision-making and exploratory research and not for official estimates. Research results may be prepared for presentation at professional meetings or in publications in professional journals to promote discussion among the larger survey and statistical community, encourage further research and refinement. Again, all presentations or publications will provide clear descriptions of the methodology and its limitations.

Affected Public: Individuals and Households.

Frequency: Ongoing.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C. Chapter 5 Sections 141 and 193.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed

information collection should be sent within 30 days of publication of this notice to *OIRA_Submission@omb.eop.gov* or fax to (202) 395-5806.

Dated: August 26, 2015.

Glenna Mickelson,
Management Analyst, Office of the Chief
Information Officer.

Foreign-Trade Zones Board

[B-29-2015]

Foreign-Trade Zone (FTZ) 148— Knoxville, Tennessee; Authorization of Production Activity, CoLinx, LLC (Bearing Units), Crossville, Tennessee

On April 29, 2015, the Industrial Development Board of Blount County and the Cities of Alcoa and Maryville, Tennessee, grantee of FTZ 148, submitted a notification of proposed production activity to the FTZ Board on behalf of CoLinx, LLC, within Sites 2 and 6, in Crossville, Tennessee.

The notification was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (80 FR 26539, 5-8-2015). The FTZ Board has determined that no further review of the activity is warranted at this time. The production activity described in the notification is authorized, subject to the FTZ Act and the Board's regulations, including Section 400.14.

Dated: August 27, 2015.

Andrew McGilvray,
Executive Secretary.

National Defense Stockpile Market Impact Committee Request for Public Comments on the Potential Market Impact of the Proposed Fiscal Year 2017 Annual Materials Plan

AGENCY: Bureau of Industry and
Security, Commerce.

ACTION: Notice of inquiry; request for
comments.

SUMMARY: The purpose of this notice is
to advise the public that the National
Defense Stockpile Market Impact

Committee, co-chaired by the
Departments of Commerce and State, is
seeking public comments on the
potential market impact of the proposed
Fiscal Year 2017 National Defense
Stockpile Annual Materials Plan. The
role of the Market Impact Committee is
to advise the National Defense Stockpile
Manager on the projected domestic and
foreign economic effects of all
acquisitions and disposals involving the
stockpile and related material research
and development projects. Public
comments are an important element of
the Committee's market impact review
process.

DATES: To be considered, written
comments must be received by October
1, 2015.

ADDRESSES: Address all comments
concerning this notice to Eric
Longnecker, U.S. Department of
Commerce, Bureau of Industry and
Security, Office of Strategic Industries
and Economic Security, 1401
Constitution Avenue NW., Room 3876,
Washington, DC 20230, fax: (202) 482-
5650 (Attn: Eric Longnecker), email:
MIC@bis.doc.gov; and Jordan Kwok,
U.S. Department of State, Bureau of
Energy Resources, 2201 C Street NW.,
Washington, DC 20520, fax: (202) 647-
4037 (Attn: Jordan Kwok), email:
kwokpj@state.gov.

FOR FURTHER INFORMATION CONTACT: Eric
Longnecker, Office of Strategic
Industries and Economic Security,
Bureau of Industry and Security, U.S.
Department of Commerce, telephone:
(202) 482-5537, fax: (202) 482-5650
(Attn: Eric Longnecker), email: *MIC@
bis.doc.gov*.

SUPPLEMENTARY INFORMATION:

Background

Under the authority of the Strategic
and Critical Materials Stock Piling
Revision Act of 1979, as amended (the
Stock Piling Act) (50 U.S.C. 98 *et seq.*),
the Department of Defense's Defense
Logistics Agency (DLA), as National
Defense Stockpile Manager, maintains a
stockpile of strategic and critical
materials to supply the military,
industrial, and essential civilian needs
of the United States for national
defense. Section 9(b)(2)(G)(ii) of the
Stock Piling Act (50 U.S.C.
98h(b)(2)(H)(ii)) authorizes the National
Defense Stockpile Manager to fund
material research and development
projects to develop new materials for
the stockpile.

Section 3314 of the Fiscal Year (FY)
1993 National Defense Authorization
Act (NDAA) (50 U.S.C. 98h-1) formally
established a Market Impact Committee
(the Committee) to "advise the National

Defense Stockpile Manager on the
projected domestic and foreign
economic effects of all acquisitions and
disposals of materials from the stockpile
. . . ." The Committee must also
balance market impact concerns with
the statutory requirement to protect the
U.S. Government against avoidable loss.

The Committee is comprised of
representatives from the Departments of
Commerce, State, Agriculture, Defense,
Energy, the Interior, the Treasury, and
Homeland Security, and is co-chaired
by the Departments of Commerce and
State. The FY 1993 NDAA directs the
Committee to consult with industry
representatives that produce, process, or
consume the materials stored in or of
interest to the National Defense
Stockpile Manager.

As the National Defense Stockpile
Manager, the DLA must produce an
Annual Materials Plan ("AMP")
proposing the maximum quantity of
each listed material that may be
acquired, disposed of, upgraded, or sold
by the DLA in a particular fiscal year.
In Attachment 1 to this notice, the DLA
lists the quantities and type of activity
(potential acquisition, potential
disposal, potential upgrade, or potential
sale) associated with each material in its
proposed FY 2017 AMP. The quantities
listed in Attachment 1 are not
acquisition, disposal, upgrade, or sales
target quantities, but rather a statement
of the proposed maximum quantity of
each listed material that may be
acquired, disposed of, upgraded, or sold
in a particular fiscal year by the DLA,
as noted. The quantity of each material
that will actually be acquired or offered
for sale will depend on the market for
the material at the time of the
acquisition or offering, as well as on the
quantity of each material approved for
acquisition, disposal, or upgrade by
Congress.

The Committee is seeking public
comments on the potential market
impact associated with the proposed FY
2017 AMP as enumerated in Attachment
1. Public comments are an important
element of the Committee's market
impact review process.

Submission of Comments

The Committee requests that
interested parties provide written
comments, supporting data and
documentation, and any other relevant
information on the potential market
impact of the quantities associated with
the proposed FY 2017 AMP. All
comments must be submitted to the
addresses indicated in this notice. All
comments submitted through email
must include the phrase "Market Impact
