

Administrative Code (AAC), Title 18, Chapter 4, in a manner that Arizona's regulations are comparable to and no less stringent than the federal requirements. EPA has also determined that the State's primacy revision meets all of the regulatory requirements for approval, as set forth in 40 CFR 142.12, including a side-by-side comparison of the Federal requirements and the corresponding State authorities, additional materials to support special primacy requirements of 40 CFR 142.16, and a statement by the Arizona Attorney General certifying that Arizona's laws and regulations adopted by the State to carry out the program revisions were duly adopted and are enforceable. Furthermore, Arizona has an audit privilege law and has provided a legal opinion that Arizona's audit privilege law does not impact the State's ability to implement or enforce its PWSS program. Therefore, EPA is tentatively approving the State's revisions as part of Arizona's PWSS Program.

Public Process. Any interested party may request a public hearing on this determination. A request for a public hearing must be received or postmarked before September 22, 2021, and addressed to the Regional Administrator at the EPA Region 9 via the following email address: R9dw-program@epa.gov. Please note, "State Primacy Rule Determination" in the subject line of the email. The Regional Administrator may deny frivolous or insubstantial requests for a hearing. If a substantial request for a public hearing is made before September 24, 2021, EPA Region 9 will hold a public hearing. Any request for a public hearing shall include the following information: 1. The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; 2. A brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement of the information that the requesting person intends to submit at such hearing; and 3. The signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

If EPA Region 9 does not receive a timely and appropriate request for a hearing and the Regional Administrator does not elect to hold a hearing on her own motion, this determination shall become final and effective on September 24, 2021, and no further public notice will be issued.

Section 276 of the Act, 47 U.S.C. 276, requires that payphone service providers (including ICS providers) be fairly compensated for completed calls.

On May 24, 2021, the Commission released the Third Report and Order, Order on Reconsideration, and Fifth Further Notice of Proposed Rulemaking, WC Docket No. 12-375, FCC 21-60 (2021 ICS Order), in which it continued its reform of the ICS marketplace. In that Order, the Commission, among other things, lowered the interstate interim rate caps; reformed the current treatment of site commission payments; eliminated the separate interstate collect calling rate caps; reformed the ancillary service rules for third-party financial

fees; capped, for the first time, international calling rates; adopted a new mandatory data collection to gather data to set permanent rates; and reaffirmed providers' obligations regarding access for incarcerated people with disabilities.

The reforms also included expanded consumer disclosure requirements, as well as new reporting requirements for ICS providers seeking waiver of the Commission's interstate and international rate caps. In connection with international rates, the Commission required that providers must separately disclose the rate component for terminating calls to each country where that provider terminates international calls.
