

collection techniques or other forms of information technology.

Comments regarding this information collection received by December 9, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number, and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Movement of Plants and Plant Products from Hawaii and the Territories.

OMB Control Number: 0579–0346.

Summary of Collection: Under the Plant Protection Act (7 U.S.C 7701), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of fruits, vegetables, plants, and plant pests to prevent the introduction of pests or diseases into the United States, or dissemination of pests and diseases within the United States. The Animal and Plant Health Inspection Service (APHIS), Plant Protection and Quarantine (PPQ), is responsible for implementing this Act and does so through the enforcement of its Hawaiian and territorial quarantine regulations contained in Part 318 of Title 7, Code of Federal Regulations.

Need and Use of the Information: APHIS will use the following forms and activities to collect information: PPQ 530, PPQ 586, PPQ 519, PPQ 540, Labeling of Boxes for Pest Free Areas, Inspection and Certification, Trapping and Surveillance, Contingency Plans approved by APHIS, Updated Mapping Identifying Places Where Horticultural or Other Crops are Grown, Written Request for Treatment Facility Approval—and Recertification, Recordkeeping, Decertification of Pest Free Areas—and Reinstatement, Notification of Emergency Conveyance, Aircraft/Ship Inspections of Departure, Production Site Registration, Packing House Registration; Labeling From Pest Free Areas, Labeling of Boxes for Pest

Free Areas; Packing, Markings and Identify. If APHIS did not collect this information or if APHIS collected this information less frequently, the spread of dangerous plant diseases and pests could cause millions of dollars in damage to U.S. agriculture.

Description of Respondents: Business or other for-profits; State, Local or Tribal Government.

Number of Respondents: 283.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 3,286.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent To Request a Revision and Extension of a Currently Approved Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection for surveys funded by NASS's many cooperators (Federal agencies, State governments, land grant universities, and other organizations). Results from these surveys are important for the cooperators in carrying out their missions, as well as of general interest to the agricultural community. This generic clearance will allow NASS to conduct surveys in a timely manner for the cooperating institutions providing funding for the surveys.

DATES: Comments on this notice must be received by January 10, 2022 to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535–NEW, by any of the following methods:

- *Email:* ombofficer@nass.usda.gov.

Include docket number above in the subject line of the message.

- *E-fax:* 855–838–6382.

- *Mail:* Mail any paper, disk, or CD–ROM submissions to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence

Avenue SW, Washington, DC 20250–2024.

- *Hand Delivery/Courier:* Hand deliver to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, DC 20250–2024.

FOR FURTHER INFORMATION CONTACT:

Kevin L. Barnes, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, 202–720–4333. Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS—OMB Clearance Officer, at 202–690–2388 or at ombofficer@nass.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Quick Response for Cooperator-Funded Surveys Generic Clearance.

OMB Control Number: 0535–0264.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare, and issue state and national estimates of crop and livestock production, prices, and disposition; as well as economic statistics, environmental statistics related to agriculture; and also to conduct the Census of Agriculture. In addition, NASS has many cooperators from other Federal agencies, State governments, land grant universities, and other organizations that seek NASS's assistance in collecting agricultural data through surveys. Results from these surveys are important for the cooperators in carrying out their missions, as well as of general interest to the agricultural community. Results from these surveys will be made available to the public by NASS or the cooperators who fund them. This generic clearance seeks approval for NASS to conduct a variety of agricultural surveys which will be paid for entirely by cooperators. NASS anticipates the cooperator-funded surveys will cover topics such as: (1) Farm management practices, (2) food safety, (3) workplace safety, (4) conservation and land use practices, (5) chemical use management practices, (6) crop quality, (7) agri-tourism, (8) local foods, and (9) other agricultural-related topics. This generic clearance is subject to the regular clearance process at OMB with a 60-day notice and a 30-day notice as part of the 120-day review period. Each individual cooperator-funded survey is then subject to a clearance process with an abbreviated clearance package which justifies the particular content of the survey, describes the

sample design, provides the timeline for the survey activities, and the questionnaire. The review period for each individual survey is approximately 45 days, including a 30-day **Federal Register** notice period.

Authority: These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–113, 44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act of 2018, Title III of Public Law 115–435, codified in 44 U.S.C. ch. 35.

Estimate of Burden: Public reporting burden for this information collection is estimated to average 30 minutes per response. Up to 10 individual surveys are included in this generic clearance to be conducted annually (total of 30). The estimated sample size for each of the 30 surveys is approximately 7,500. Each of the 30 surveys are expected to be conducted once annually. This is an increase from the previous approval due as the previous burden request submitted was intended to be a one year burden request.

The estimated number of responses per respondent is 1. Publicity materials and instruction sheets will account for approximately 5 minutes of additional burden per respondent. Respondents who refuse to complete a survey will be allotted 2 minutes of burden per attempt to collect the data. NASS will conduct the surveys initially by mail and/or internet with phone follow-up for non-response. Face-to-face interviews may also be used in limited situations.

Respondents: Farmers and ranchers, and others associated with the agricultural industry.

Estimated Number of Respondents: 225,000.

Frequency of Responses: Once annually for each individual survey.

Estimated Total Burden on Respondents: The total estimated burden is 112,000 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the

information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological, or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, November 3, 2021.

Kevin L. Barnes,

Associate Administrator.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance To Conduct Survey Research Studies.

OMB Control Number: 0535–0248.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: The National Agricultural Statistics Service (NASS) of the United States Department of Agriculture (USDA) will request approval from the Office of Management and Budget (OMB) for a generic clearance that will allow NASS to rigorously develop, test, and evaluate its survey instruments and methodologies. The primary objectives of the National Agricultural Statistics Service are to prepare and issue State and national estimates of crop production, livestock production, economic statistics, and environmental statistics related to agriculture and to conduct the Census of Agriculture. This request is part of an on-going initiative to improve NASS surveys, as recommended by both its own guidelines and those of OMB.

In the last decade, state-of-the art techniques have been increasingly instituted by NASS and other Federal agencies and are now routinely used to improve the quality and timeliness of survey data and analyses, while simultaneously reducing respondents' cognitive workload and burden. The purpose of this generic clearance is to allow NASS to continue to adopt and use these state-of-the-art techniques to improve its current data collections efforts. These tests will also be used to aid in the development of new surveys.

NASS envisions using a variety of survey improvement techniques, as appropriate to the individual project under investigation. These include focus groups, cognitive and usability laboratory and field techniques, exploratory interviews, behavior coding, respondent debriefing, pilot surveys, and split-panel tests. After obtaining participants' permission, NASS plans to audio-record some cognitive interviews
