

occurred between January 1 and December 31. The 2022 fee payments must be submitted to NMFS on or before December 31, 2022. Payment must be made in accordance with the payment methods set forth in 50 CFR 679.66(a)(4)(iv).

AIP Program Standard Price and Fee Percentage

The AIP Program allocates the Aleutian Islands directed pollock fishery TAC to the Aleut Corporation, consistent with the Consolidated Appropriations Act of 2004 (Pub. L. 108–109) and implementing regulations. Annually, prior to the start of the pollock season, the Aleut Corporation provides NMFS with the identity of its designated representative for harvesting the Aleutian Islands directed pollock fishery TAC. The same individual is responsible for the submission of all cost recovery fees for pollock landed under the AIP Program. Cost recovery requirements for the AIP Program are at 50 CFR 679.67.

NMFS calculates the standard price for pollock using the most recent annual value information reported to the Alaska Department of Fish and Game for the Commercial Operator's Annual Report and compiled in the Alaska Commercial Fisheries Entry Commission Gross Earnings data for Aleutian Islands pollock. As explained above, due to the time required to compile the data, there is a 1-year delay between the gross earnings data year and the fishing year to which it is applied.

For the 2022 fishing year, the Aleut Corporation did not select any participants to harvest or process the Aleutian Islands directed pollock fishery TAC, and most of that TAC was reallocated to the Bering Sea directed pollock fishery TAC. Since there was no fishery for the AIP Program in 2022, the fee percentage is zero.

CDQ Standard Price and Fee Percentage

The CDQ Program was implemented in 1992 to provide access to BSAI fishery resources to villages located in Western Alaska. Section 305(i) of the Magnuson-Stevens Act identifies 65 villages eligible to participate in the CDQ Program and the six CDQ groups to represent these villages. CDQ groups receive exclusive harvesting privileges of the TACs for a broad range of crab species, groundfish species, and halibut. NMFS implemented a CDQ cost recovery program for the BSAI crab fisheries in 2005 (70 FR 10174, March 2, 2005) and published the cost recovery fee percentage for the 2021/2022 crab fishing year on July 12, 2022 (87 FR 41292, July 12, 2022). This notice

provides the cost recovery fee percentage for the CDQ Program with respect to groundfish and halibut. Each CDQ group is subject to cost recovery fee requirements and the designated representative of each CDQ group is responsible for submitting payment for their CDQ group. Cost recovery requirements for the CDQ Program are at 50 CFR 679.33.

For most CDQ groundfish species, NMFS annually summarizes volume and value information for landings of all fishery species subject to cost recovery in order to estimate a standard price for each fishery species. The volume and value information are obtained from the First Wholesale Volume and Value Report and the Pacific Cod Ex-Vessel Volume and Value Report. For CDQ halibut and fixed-gear sablefish, NMFS calculates the standard prices using information from the Individual Fishing Quota (IFQ) Ex-Vessel Volume and Value Report, which collects information on both IFQ and CDQ volume and value.

Using the fee percentage formula described above, the estimated percentage of direct program costs to fishery value for the 2022 calendar year is 0.85 percent for the CDQ Program. For 2022, NMFS applied the calculated CDQ fee percentage to all CDQ groundfish and halibut landings made between January 1 and December 31 to calculate the CDQ fee liability for each CDQ group. The 2022 fee payments must be submitted to NMFS on or before December 31, 2022. Payment must be made in accordance with the payment methods set forth in 50 CFR 679.33(a)(3)(iv).

Submission for OMB Review; Comment Request

AGENCY: The Office of the Under Secretary of Defense for Personnel and Readiness (OUSD(P&R)), Department of Defense (DoD).

ACTION: 30-Day information collection notice.

SUMMARY: The DoD has submitted to the Office of Management and Budget

(OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by December 30, 2022.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Survey of Reserve Component Spouses; OMB Control Number 0704–RCSS.

Type of Request: New.
Number of Respondents: 72,700.
Responses per Respondent: 1.
Annual Responses: 72,700.
Average Burden per Response: 15 minutes.

Annual Burden Hours: 18,175.
Needs and Uses: The DoD Survey of Reserve Component Spouses (RCSS) is the primary source for reliable and generalizable data on the effects of military life on military spouses and their families and the effectiveness of current programs and policies related to military families. The survey is designed to enhance understanding of how spouse and family resilience impact Reserve component force readiness and retention, and is also an indicator informing the effectiveness of programs and policies under the purview of DoD's Military Community and Family Policy Department. Without this biennial survey, DoD would not have current data to guide limited resources to the appropriate programs, policies, and services related to reserve component spouses, their families and ultimately Service members. This survey provides an opportunity for military spouses to directly expand policy makers' knowledge by sharing opinions on issues that directly affect them. Success of current efforts, the impact of activations and deployments, and opportunities to identify areas of need are captured via this biennial survey. These survey results ensure that policy-making decisions are based on current and statistically reliable data regarding the lived experiences of Reserve component families.

Affected Public: Individuals or households.

Number: Evaluation of State Implementation of Supportive Policies to Improve Educational Experiences and Achievement for K-12 Military Children (SPEAK Military Children); OMB Control Number 0704-SPEK.

Needs and Uses: The purpose of this study is to investigate the implementation of four specific initiatives (*i.e.*, Advance Enrollment, Military Student Identifier, Purple Star Schools [or similar efforts], and the Interstate Compact on Educational Opportunity for Military Children) and other policies intended to support military-connected students' (*i.e.*, kindergarten through 12th grade) educational success (*e.g.*, academic performance, social-emotional development and well-being).

Each of these groups of people may have different perspectives on the implementation of the abovementioned

four initiatives. Since little is known about the implementation or effectiveness of these initiatives, understanding different stakeholder's perspectives is critical. With a better understanding of how the programs and policies are being implemented and stakeholders' perceptions of the programs and policies, the Defense-State Liaison Office will be able to make informed recommendations for improvements in federal and state policies intended to support children in military families.
