DEPARTMENT OF THE INTERIOR**National Park Service**

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the U.S. Department of the Interior, National Park Service, Death Valley National Park, Death Valley, CA and NV

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the U.S. Department of the Interior, National Park Service, Death Valley National Park, Death Valley, CA and NV.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the National Park Service unit that has

control or possession of these Native American human remains. The Manager of the National NAGPRA Program is not responsible for the determinations within this notice.

A detailed assessment of the human remains and associated funerary objects was made by National Park Service professional staff in consultation with the Big Pine Band of Owens Valley Paiute Shoshone Indians of the Big Pine Reservation, California; Chemehuevi Indian Tribe of the Chemehuevi Reservation, California; Death Valley Timbi-Sha Shoshone Band of California; Duckwater Shoshone Tribe of the Duckwater Reservation, Nevada; Ely Shoshone Tribe of Nevada; Fort Independence Indian Community of Paiute Indians of the Fort Independence Reservation, California; Las Vegas Tribe of Paiute Indians of the Las Vegas Indian Colony, Nevada; Moapa Band of Paiute Indians of the Moapa River Indian Reservation, Nevada; Paiute-Shoshone Indians of the Bishop Community of the Bishop Colony, California; Paiute-Shoshone Tribe of the Fallon Reservation and Colony, Nevada; Paiute-Shoshone Indians of the Lone Pine Community of the Lone Pine Reservation, California; Pyramid Lake Paiute Tribe of the Pyramid Lake Reservation, Nevada; Reno-Sparks Indian Colony, Nevada; Walker River Paiute Tribe of the Walker River Reservation, Nevada; and Yerington Paiute Tribe of the Yerington Colony & Campbell Ranch, Nevada. A representative of the Kawaiisu, a nonfederally recognized Indian group, was also consulted.

The National Park Service contracted with LSA Associates, Inc., of Irvine, CA, to assist in compliance with NAGPRA. The LSA study, Death Valley National Park Cultural Affiliation Study (1998), evaluated all collections from the area previously administered as U.S. Department of the Interior, Death Valley National Monument. In 1995, additional lands formerly under the control of the U.S. Department of the Interior, Bureau of Land Management were transferred to Death Valley National Park. Collections from these new lands have not been fully evaluated by the National Park Service at this time.

In 1953, human remains representing one individual were recovered during legally authorized excavations by William Wallace at site CA-INY-1034 near Mesquite Flat, Inyo County, CA. This individual had been cremated. No known individual was identified. The one associated funerary object is a chert projectile point. The associated funerary object indicates that these human remains probably were cremated during

the Death Valley III or IV period (A.D. 1-1870).

In 1953, human remains representing one individual were recovered during legally authorized excavations by William Wallace at site CA-INY-1137 near Mesquite Flat, Inyo County, CA. This individual had been cremated. No known individual was identified. The five associated funerary objects are three manos, one chert drill, and one bag of glass beads. The associated funerary objects indicate that these human remains probably were cremated during the Death Valley IV period (A.D. 1000-1870).

In 1954, human remains representing one individual were recovered during legally authorized excavations by William Wallace at a site (no trinomial) near Wingate Wash, in either Inyo or San Bernardino County, CA. This individual was found in a previously disturbed site. No known individual was identified. The two associated funerary objects are two lithic quarry blanks. Mr. Wallace noted that an archaic type projectile was found in association with the burial and thus assigned this burial to the Death Valley II period (3000 B.C.-A.D. 1). This projectile point has not been found in the park's collections.

In 1954, human remains representing one individual were recovered during legally authorized excavations by William Wallace at site CA-INY-1239, Inyo County, CA. This individual had been cremated and was found at the base of a sand dune. No known individual was identified. The three associated funerary objects are two ceramic potsherds and one bag of glass beads. The associated objects indicate that these human remains probably were cremated during the Death Valley IV period (A.D. 1000-1870).

In 1954, human remains representing one individual were recovered during legally authorized excavations by William Wallace at site CA-INY-1215 near Mesquite Flat, Inyo County, CA. This individual had been cremated. No known individual was identified. The one associated funerary object is a lithic uniface fragment. The associated funerary object indicates that these human remains probably were cremated during the Death Valley III or IV Period (A.D. 1-1870).

In 1954, human remains representing one individual were recovered during legally authorized excavations by William Wallace at site CA-INY-1234 near Mesquite Flat, Inyo County, CA. This individual had been cremated. No known individual was identified. The 144 associated funerary objects are 10 shell beads, 3 stone pestle fragments, 6
