Title: Fast Response Survey System (FRSS) 100-103—Arts Education in Public Elementary and Secondary Schools.

Frequency: One time.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 9,286.

Burden Hours: 3,939.

Abstract: The National Center for Education Statistics (NCES), U.S. Department of Education, proposes to employ the Fast Response Survey System (FRSS) to conduct a set of seven surveys on arts education, as requested by Congress—Senate Report 110-107/ House Bill report H16251. FRSS was

used to conduct previous national surveys on arts education in 1999-2000 and 1994. The seven new FRSS surveys will be administered during the 2009-10 school year and will address topics in K-12 arts education at the elementary and secondary school- and teacher-levels. A different survey will be conducted for each of the following populations: Elementary school principals; Secondary school principals; Elementary general classroom teachers; Elementary visual arts specialists; Elementary music specialists; Secondary visual arts specialists; and Secondary music specialists. The surveys will allow for an examination of change in arts education from a decade ago, including topics such as the availability and characteristics of instructional programs in visual arts, music, dance, and drama/theatre; program staffing; funding sources; teachers' educational backgrounds (e.g., degrees, certification, years of experience), participation in professional development activities; teaching load and practices; collaboration and integration of the arts into other areas of the curriculum; and involvement in arts-related activities outside of school. New in the 2009-10 data collection are two teacher surveys at the secondary school level, which will provide baseline data for secondary school music and visual arts specialists and will report on topics similar to the elementary music and visual arts specialist surveys, with some additional topics specific to the secondary level, such as Advanced Placement and International Baccalaureate classes, and visual arts classes taught outside regular school hours.

[Docket No. CP09–421–000]

Cadeville Gas Storage LLC; Notice of Application

June 4, 2009.

Take notice that on May 27, 2009, Cadeville Gas Storage (Petitioner), Three Riverway, Suite 1350, Houston, Texas 77056, filed with the Commission a petition for Exemption of Temporary Acts and Operations from Certificate Requirements, pursuant section 7(c)–(1)–(B) of the Natural Gas Act (NGA), and Rule 207–(a)–(5) of the Commission’s Rules of Practice and Procedures. Petitioner requests an exemption for the temporary and limited purpose of undertaking test well drilling at a property they control in Ouachita Parish, Louisiana. This test well drilling is necessary to determine the technical, environmental and economic feasibility of developing an underground natural gas storage facility. The activities include the drilling of one reservoir test well to determine reservoir characteristics and the feasibility of developing the reservoir for natural gas. All as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208–3676, or TTY, contact (202) 502–8659.

Any questions regarding the petition should be directed to counsel for Cadeville Gas Storage LLC, J. Gordon Pennington, Attorney at Law, 2707 N. Kensington Street, Arlington, VA 22207 at (703) 533–7638, or at Pennington5@verizon.net.

Pursuant to section 157.9 of the Commission’s rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission’s public record (eLibrary) for this proceeding; or issue a Notice of Schedule for

Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission’s public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s FEIS or EA.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission’s environmental mailing list, will receive

copies of the environmental documents, and will be notified of meetings associated with the Commission’s environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission’s final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the “eFiling” link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

Comment Date: 5 p.m. Eastern Time on June 18, 2009.

Kimberly D. Bose,

Secretary.
