

cubic feet of space or 156 square feet of floor space. This refuge chamber will be located on the mining level within a 30-minute walking distance from the working face. The refuge chamber will be equipped for a maximum of 20 miners. This capacity exceeds the normal work crew on any given day.

(b) Use compressed air to the following specifications:

(i) Only grade D breathing air will be supplied;

(ii) A supply of no less than 2880 liters of compressed air per day per person for a minimum of 4 days will be provided;

(iii) Cylinders will be stored in a safe manner and in compliance with MSHA standards 30 CFR 57.16005 and 57.16006, away from flammable and combustible materials;

(iv) A regulator system for regulating the flow of compressed air at a rate of 2 liters per minute per person will be provided with the refuge chamber supplies, and an extra regulator will be kept within the refuge chamber;

(v) Equipment designed for monitoring the oxygen and carbon dioxide level of the ambient air in the refuge chamber will be provided with the refuge chamber supplies;

(vi) The condition and pressure of the cylinders will be inspected on a monthly basis;

(vii) Tools and any repair parts recommended by the manufacturer for the compressed air system will be kept within the refuge chamber; and

(viii) A ball valve air vent will be installed in the wall of the refuge chamber to relieve pressure buildup from the use of the compressed air inside the chamber.

(c) In the alternative, the refuge chamber will be equipped with a compressed oxygen supply to the following specifications:

(i) Only medical or airline quality (United States Pharmacopeia) oxygen will be supplied in refuge chambers;

(ii) A supply of no less than 550 liters of oxygen per day per person for a minimum of 4 days will be provided;

(iii) Oxygen cylinders will be stored in a safe manner, in compliance with MSHA standards 30 CFR 57.16005 and 57.16006, away from flammable and combustible materials;

(iv) An oxygen regulator for regulating the flow of oxygen and monitoring the reserve available will be provided with the refuge chamber supplies, and an extra oxygen regulator will be kept within the refuge chamber;

(v) Equipment designed for monitoring the oxygen and carbon dioxide level of the ambient air in the refuge chamber will be provided with

the refuge chamber supplies. Oxygen levels will not exceed 23 percent inside the refuge chamber;

(vi) The condition and pressure of the cylinders will be inspected on a monthly basis;

(vii) Tools and any repair parts recommended by the manufacturer for the compressed oxygen system will be kept within the refuge chamber;

(viii) An electric-powered CO₂ scrubbing system will be included within the refuge chamber which will be provided with a 96 hour battery backup in the event of lost power. Sufficient CO₂ scrubbing cartridges will be provided for 20 miners for up to 96 hours to maintain a carbon dioxide level below 1 percent; and

(ix) A ball valve air vent will be installed in the wall of the refuge chamber to relieve pressure buildup from the use of the compressed air inside the chamber.

(d) The oxygen supply and carbon dioxide will be monitored via a hand-held mine gas meter and kept in the refuge chamber with battery backup to ensure availability of use when required. The refuge chamber will be provided with a hand-held mine gas meter for air monitoring and also have a battery-powered mine telephone.

(e) Commercially purchased water will be supplied in sealed individual portion-sized bottles in the refuge chamber. There will be a supply of 2.5 quarts of water per day per person for four days, for a total of 50 gallons minimum, with a shelf life of two years. The condition and quantity of the water will be confirmed by inspection on a monthly basis. Written instructions for conservation of water will be provided with the refuge chamber supplies.

(f) A minimum of 2000 calories of food per person per day sufficient for 20 miners for 96 hours will be included within the refuge chamber.

(g) All miners affected will receive training in the operation of the refuge chamber and will receive refresher training annually.

(h) The refuge chamber will be inspected monthly and documented by the mine Manager or designee.

The petitioner asserts that the proposed alternative method will at all times guarantee no less than the same measure of protection afforded the miners by the existing standard.

Dated: July 31, 2014.

Sheila McConnell,

Acting Director, Office of Standards, Regulations and Variances.

BILLING CODE 4510-43-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA-2014-046]

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before September 4, 2014. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting Records Management Services (ACNR) using one of the following means:

Mail: NARA (ACNR), 8601 Adelphi Road, College Park, MD 20740-6001.

Email: request.schedule@nara.gov.

FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Margaret Hawkins, Director, Records

Management Services (ACNR), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740–6001. Telephone: 301–837–1799. Email: request.schedule@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media neutral unless specified otherwise. An item in a schedule is media neutral when the disposition instructions may be applied to records regardless of the medium in which the records are created and maintained. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is limited to a specific medium. (See 36 CFR 1225.12(e).)

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit

level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

Schedules Pending

1. Department of Defense, Army and Air Force Exchange Service (DAA–0334–2014–0001, 1 item, 1 temporary item). Records related to duties paid on imported goods.

2. Department of Defense, Army and Air Force Exchange Service (DAA–0334–2014–0002, 2 items, 2 temporary items). Records related to accidents involving agency employees and property.

3. Department of Defense, Army and Air Force Exchange Service (DAA–0334–2014–0003, 2 items, 2 temporary items). Records related to consolidated safety reports.

4. Department of Health and Human Services, Office of the Inspector General (DAA–0468–2013–0013, 2 items, 2 temporary items). Records include investigative case files related to alleged fraud, abuse, and irregularities or violations of laws, and regulations and allegations not resulting in a formal case file.

5. Department of Homeland Security, Transportation Security Administration (N1–560–12–3, 6 items, 6 temporary items). Records related to internal investigations and inspections, including reports and investigative case files.

6. Department of Homeland Security, Transportation Security Administration (DAA–0560–2013–0008, 1 item, 1 temporary item). Master files of an electronic information system used to collect and analyze customer service feedback.

7. Department of Justice, Bureau of Alcohol, Tobacco, Firearms, and Explosives (DAA–0436–2013–0002, 1 item, 1 temporary item). Master files of an electronic information system used to facilitate background checks related to weapons licenses, permits, or registrations.

8. Department of Justice, Bureau of Alcohol, Tobacco, Firearms, and Explosives (DAA–0436–2013–0003, 1 item, 1 temporary item). Master files of an electronic information system used to facilitate background checks for firearms purchasing.

9. Department of Labor, Occupational Safety and Health Administration (N1–100–09–1, 27 items, 25 temporary items). Master files of electronic information systems of agency directorates of administrative programs,

cooperative and state programs, technical support and emergency management, evaluation and analysis, and construction. Proposed for permanent retention are master files of electronic information systems related to accident investigations and industrial health sampling.

10. Department of State, Bureau of Conflict and Stabilization Operations (DAA–0059–2014–0018, 3 items, 3 temporary items). Records of the Office of Program Strategies and Design including standard operating procedures and manuals, copies of grant files, and funding files.

11. Department of the Treasury, Bureau of the Public Debt (N1–53–03–1, 4 items, 4 temporary items). Records related to the processing of savings bonds or government securities.

12. Library of Congress, Agency-wide (DAA–0297–2014–0009, 7 items, 7 temporary items). Records relating to Web site management.

13. Nuclear Regulatory Commission, Office of Nuclear Reactor Regulation (N1–431–08–15, 15 items, 8 temporary items). Records related to performance issues and operating experience at nuclear power plants. Proposed for permanent retention are master files of electronic information systems and related publications regarding licensee performance and plant events.

14. Railroad Retirement Board, Agency-wide (DAA–0184–2013–0002, 21 items, 21 temporary items). Records related to the administration of human resources.

15. Railroad Retirement Board, Agency-wide (DAA–0184–2013–0004, 13 items, 13 temporary items). Records related to the administration of information resources.

Dated: July 29, 2014.

Paul M. Wester, Jr.,

Chief Records Officer for the U.S. Government.

NATIONAL SCIENCE FOUNDATION

Proposal Review; Notice of Meetings

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation (NSF) announces its intent to hold proposal review meetings throughout the year. The purpose of these meetings is to provide advice and recommendations concerning proposals submitted to the NSF for financial support. The agenda for each of these meetings is to review and evaluate
