Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Shrimp Fishery of the Gulf of Mexico; Scoping Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of scoping meetings; request for comments.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will conduct scoping meetings to receive comments on a Draft Options Paper for Amendment 10 to the Fishery Management Plan for the Shrimp Fishery of the Gulf of Mexico (Shrimp Amendment 10).

DATES: Written comments will be accepted until 5 p.m. on March 6, 2000. The scoping meetings will be held from February 28 through March 1, 2000. See **SUPPLEMENTARY INFORMATION** for specific dates and times.

ADDRESSES: Written comments should be sent to the Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301, North, Suite 1000, Tampa, Florida 33619; telephone: (813) 228-2815. Copies of the Draft Options Paper are also available from the Council.

FOR FURTHER INFORMATION CONTACT: Dr. Richard Leard, Senior Fishery Biologist, Gulf of Mexico Fishery Management Council; telephone: (813) 228-2815.

SUPPLEMENTARY INFORMATION: The scoping meetings will be convened to receive comments on the need for additional bycatch reduction requirements for the shrimp fishery in the exclusive economic zone (EEZ) south and east of 85°30' W. long. Amendment 9 to the Fishery Management Plan for the Shrimp Fishery of the Gulf of Mexico (FMP), approved by the National Marine Fisheries Service (NMFS) on July 30, 1997, and implemented by final rule on May 14, 1998 (April 14, 1998; 63 FR 18139), required the use of a NMFS-certified bycatch reduction device (BRD) in shrimp trawls used in the EEZ from Cape San Blas, Florida (85°30' W. long.) to the Texas/Mexico border and provided for the certification of the Fisheye BRD in the 30 mesh position. The purpose of this action was to reduce the bycatch mortality of juvenile red snapper by 44 percent from the average mortality for the years 1984-89. Amendment 9 to the FMP exempted shrimp trawls fishing for royal red shrimp outside of 100 fathoms, as well as groundfish and butterfish trawls. It also excluded small try nets and no more than two ridged frame roller trawls that do not exceed 16 feet (4.9 m). Amendment 9 to the FMP did not require BRDs south and east of 85-30' West long. because few juvenile red snapper were found as bycatch in this area. Because of the Magnuson-Stevens Fishery Conservation and Management Act's requirement to reduce bycatch to the extent practicable, the Council is considering the need for additional measures to reduce bycatch.

Scoping meetings for the Draft Options Paper on Shrimp Amendment 10 will begin at 7:00 p.m. and end at 10:00 p.m. at all of the following locations:

1. Monday, February 28, 2000—New Orleans Airport Hilton, 901 Airline Drive, Kenner, LA 70062

2. Tuesday, February 29, 2000—Mississippi Department of Marine Resources, 1141 Bayview Avenue, Biloxi, MS 39530

3. Wednesday, March 1, 2000—Adam's Mark Hotel Mobile, 64 South Water Street, Mobile, AL 36602

Description

The Corporation seeks approval of three survey forms for the evaluation of the community impacts of the Corporation's AmeriCorps*NCCC program. It will allow for the assessment of the impact of the AmeriCorps*NCCC projects on direct beneficiaries, agency and organizational sponsors, and the larger communities they serve. It will also help the Corporation to determine effective planning, initiation, and implementation practices for enhancing AmeriCorps*NCCC projects' impacts on communities.

Data obtained from the surveys, in combination with documentation available from AmeriCorps*NCCC program managers, will provide three complementary options for estimating impacts. These include (1) describing impacts on a program-by-program basis in the terms and measures used by sponsors in relation to the "no-treatment" expectation, (2) examining reported actual impacts in relation to

predicted ones, and (3) calculating the monetary benefit of some programs' impacts. These impacts can be related to the structural and implementation characteristics of the projects.

There has been one change since the publication of the 60 day notice (**Federal Register**: October 15, 1999 (Volume 64, Number 199), Pages 55905-55907). An intensive interview protocol for use in assessing implementation at a small number of project sites has been eliminated.

Dated: February 10, 2000.

General Counsel.
