

members of the Committee agreed. The recommendations can be divided into two main topics. The first topic is recommendations on how EPA should revise the TCR while maintaining or improving public health protection. The second topic concerns what data should be collected, research conducted, and/or risk management strategies evaluated to better inform distribution system contaminant occurrence and associated public health risks.

Today's notice, in addition to its posting on the EPA's TCR Web page, provides additional notification to the public regarding the availability of the AIP. In accordance with its usual rule development process, the Agency will provide a public comment period for the proposed Revised Total Coliform Rule when it is published and will address those comments in completing the final rule.

The Agreement in Principle (AIP) is the result of a tremendous collaborative effort and EPA would like to express its appreciation to all members of the Committee, as well as to members of the Technical Workgroup that supported the Committee.

The data are shared with the Office of Federal Contract Compliance Programs (OFCCP), U.S. Department of Labor, and several other Federal agencies. Pursuant to § 709(d) of Title VII of the Civil Rights Act of 1964, as amended, EEO-1 data are also shared with eighty-six State and local Fair Employment Practices Agencies (FEPAs).

Burden Statement: The estimated number of respondents included in the annual EEO-1 survey is 45,000 private employers. The estimated number of establishment-based responses per reporting company is between 3 and 4 EEO-1 reports annually. The annual number of responses is approximately 170,000.
