SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of an updated IT plan entitled "PDUFA IV Information Technology Plan." This plan will meet one of the performance goals agreed to under the 2007 reauthorization of PDUFA IV (Title I of the Food and Drug Administration Amendments Act of 2007 (Pub. L. 110-85)). Under section XIV of the PDUFA Performance Goals, FDA agreed to develop, periodically update, and publish for comment an IT plan for achieving the objectives defined in section XIV, Information Technology Goals, of the PDUFA Performance Goals (see <http://www.fda.gov/ForIndustry/UserFees/PrescriptionDrugUserFee/ucm119243.htm>). This plan is intended to provide regulated industry and other stakeholders with information on FDA's vision and plan for improving the automation of business processes and maintaining information systems that support the process for the review of human drug applications, to achieve the objectives defined in section XIV of the PDUFA Performance Goals. The objectives of the PDUFA IV IT Goals are to move FDA towards the long-term goal of an automated standards-based information technology environment for the exchange, review, and management

of information supporting the process for the review of human drug applications throughout the product life cycle.

In the **Federal Register** of June 30, 2008 (73 FR 36880), FDA issued a notice announcing the availability of an earlier version of the IT plan entitled "Prescription Drug User Fee Act (PDUFA) IV Information Technology Plan" (June 2008 plan). This updated plan revises the June 2008 plan; it communicates the progress and strategic changes for key initiatives that illustrate the accomplishment of near-term objectives and describes FDA's strategy for meeting the long-term goal of a fully electronic submission and review environment. The sections that have been revised are identified in the Revision Index (after the Table of Contents) in the updated plan.

FDA conducts an annual IT assessment to measure performance against the IT plan. The 2010 Annual IT Assessment is available at <http://www.fda.gov/ForIndustry/UserFees/PrescriptionDrugUserFee/ucm183308.htm>.

II. Electronic Access

Persons with access to the Internet may obtain the updated plan at <http://www.regulations.gov>.

proposed data collection projects (section 3506(c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Pub. L. 104-13), the Health Resources and Services Administration (HRSA) publishes periodic summaries of proposed projects being developed for submission to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, e-mail paperwork@hrsa.gov or call the HRSA Reports Clearance Officer at (301) 443-0165.

Comments are invited on: (a) The proposed collection of information for the proper performance of the functions of the Agency; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Health Professions Student Loan (HPSL) Program and Nursing Student Loan (NSL) Program Administrative Requirements (Regulations and Policy) (OMB No. 0915-0047)—[Extension]

The regulations for the Health Professions Student Loan (HPSL) Program and Nursing Student Loan (NSL) Program contain a number of reporting and recordkeeping requirements for schools and loan applicants. The requirements are essential for assuring that borrowers are aware of rights and responsibilities, know the history and status of each loan account in order to pursue aggressive collection efforts to reduce default rates, and that they maintain adequate records for audit and assessment purposes. Schools are free to use improved information technology to manage the information required by the regulations.

The estimated total burden is 49,489 hours. The annualized burden estimates are as follows:
