447. Small Business Size Standards; Alternative Size Standard for 7(a), 504, and Disaster Loan Programs [3245–AG16]

Legal Authority: Pub. L. 111–240, sec. 1116

Abstract: SBA will propose amendments its size eligibility criteria for Business Loans, certified development company (CDC) loans under title V of the Small Business Investment Act (504) and economic injury disaster loans (EIDL). For the SBA 7(a) Business Loan Program and the 504 program, the amendments will provide an alternative size standard for loan applicants that do not meet the small business size standards for their industries. The Small Business Jobs Act of 2010 (Jobs Act) established alternative size standards that apply to both of these programs until SBA's Administrator establishes other alternative size standards. For the disaster loan program, the amendments will provide an alternative size standard for loan applicants that do not meet the Small Business Size Standard for their industries. SBA loan program alternative size standards do not affect other Federal Government programs, including Federal procurement.

Final Rule Stage

451. Small Business Timber Set-Aside Program [3245–AG69]

Legal Authority: 15 U.S.C. 631; 15 U.S.C. 644(a)

Abstract: The U.S. Small Business Administration (SBA or Agency) is amending its Small Business Timber Set-Aside Program (the Program) regulations. The Small Business Timber Set-Aside Program is rooted in the Small Business Act, which tasked SBA with ensuring that small businesses receive a fair proportion of the total sales of government property. Accordingly, the Program requires Timber sales to be set aside for small business when small business participation falls below a certain amount. SBA considered comments received during the Advance Notice of Proposed Rulemaking and Notice of Proposed Rulemaking processes, including on issues such as, but not limited to, whether the saw timber volume purchased through stewardship timber contracts should be included in calculations, and whether the appraisal point used in set-aside sales should be the nearest small business mill. In addition, SBA is considering data from the timber industry to help evaluate the current program and economic impact of potential changes.

452. Small Business Size Standards: Manufacturing and Industries With Employee Based Size Standards in Other Sectors Except Wholesale Trade and Retail Trade [3245–AH09]

Legal Authority: 15 U.S.C. 632(a)

Abstract: The Small Business Jobs Act of 2010 (Jobs Act) requires SBA to conduct every five years a detailed review of all size standards and to make appropriate adjustments to reflect market conditions. As part of the second 5-year review of size standards under the Jobs Act, in this proposed rule, SBA will evaluate all industries in North American Industry Classification System (NAICS) Sector 31–33 (Manufacturing) and industries with employee-based size standards in other sectors except Wholesale Trade and Retail Trade and make necessary adjustments to their size standards. This is one of a series of proposed rules that will examine groups of NAICS sectors. SBA will apply its revised Size Standards Methodology, which is available on its website at <http://www.sba.gov/size>, to this proposed rule.

453. Small Business Size Standards: Adjustment of Monetary Based Size Standards for Inflation [3245–AH17]

Legal Authority: 15 U.S.C. 632(a)

Abstract: In this final rule, the U.S. Small Business Administration (SBA or Agency) adjusts all monetary based industry size standards (*i.e.*, receipts, assets, net worth, and net income) for inflation since the last adjustment in 2014. In accordance with its regulations

in 13 CFR 121.102(c), SBA is required to review the effects of inflation on its monetary standards at least once every five years and adjust them, if necessary. In addition, the Small Business Jobs Act of 2010 (Jobs Act) also requires SBA to conduct every five years a detailed review of all size standards and to make appropriate adjustments to reflect market conditions. This action will restore the small business eligibility of businesses that have lost that status due to inflation.

454. Small Business Size Standards: Adjustment of Monetary Based Size Standards, Disadvantage Thresholds, and 8(a) Eligibility Thresholds for Inflation [3245–AH93]

Legal Authority: 15 U.S.C. 632(a); 15 U.S.C. 637(a)(6)(A)

Abstract: SBA intends to issue this rulemaking to adjust its monetary small business size standards (*i.e.*, receipts, net income, net worth, and financial assets) for the effects of inflation that have occurred since the last inflation adjustment, which was effective on August 19, 2019. SBA is required by its regulations in 13 CFR 121.102(c) to review the effects of inflation on its monetary standards at least once every five years. As in previous adjustments, SBA will apply the Gross Domestic Product (GDP) price index as a measure of inflation. This action will restore small business eligibility to businesses that have lost that status due to inflation.

In addition, SBA intends to adjust other monetary thresholds in its regulations that are otherwise not adjusted for inflation under FAR 1.109. These thresholds primarily are those used in the 8(a) Business Development and the Economically Disadvantaged Women-Owned Small Business (EDWOSB) programs to determine

economic disadvantage. Others are used to maintain eligibility for the 8(a) program. In some cases, these thresholds have not been adjusted for 25 years. This action will permit small businesses to retain eligibility as economically disadvantaged and eligible for the 8(a) program, despite an increase in inflation.

SBA will publicize the rule via the Small Business Procurement Advisory Council, the Integrated Acquisition Environment, fbo.gov, press releases, publication of this rule in the **Federal Register**, emails to interested parties, and the size standards website at www.sba.gov/size.

455. Small Business Size Standards: Wholesale Trade and Retail Trade [3245–AH10]

Legal Authority: 15 U.S.C. 632(a)

Abstract: The Small Business Jobs Act of 2010 (Jobs Act) requires SBA to conduct every five years a detailed review of all size standards and to make appropriate adjustments to reflect market conditions. As part of the second 5-year review of size standards under the Jobs Act, in this proposed rule, SBA will evaluate all industries in North American Industry Classification System (NAICS) Sector 42 (Wholesale Trade) and Sector 44–45 (Retail Trade) and make necessary adjustments to their size standards. 456. Small Business Size Standards: Adoption of 2022 North American Industry Classification System for Size Standards [3245-AH89]

Legal Authority: 15 U.S.C. 632(a)

Abstract: This will amend SBA's Small Business Size Regulations by

incorporating the Office of Management and Budget's (OMB) 2022 revision of the North American Industry Classification System (NAICS) into its table of small business size standards. NAICS 2022 created 111 new industries involving 147 NAICS 2017 industries in 11 Sectors, mostly in Sector 44-45 (Retail Trade), followed by Sector 31-33 (Manufacturing), and Sector 51 (Information). Of the 111 new industries, 79 were formed by merging two or more of 124 industries or their parts. In addition, the NAICS 2022 revised titles, 6-digit codes, or definitions of the 32 other NAICS 2017 industries or their parts. As a result, the size standards for some existing industries or parts will change. Similar to the adoptions of prior OMB revisions to NAICS in 2002, 2007, 2012, and 2017,

SBA will adopt the NAICS 2022 revision to its table of size standards, effective the beginning of the Federal government's new fiscal year (October 1, 2022).
