SUPPLEMENTARY INFORMATION:

Title: State Program Adequacy Determination—Municipal Solid Waste Landfills (MSWLFs) and Non-municipal, Non-hazardous Waste Disposal Units that Receive Conditionally Exempt Small Quantity Generator (CESQG) Hazardous Waste, OMB Control No. 2050-0152; EPA ICR No. 1608.03, expiring April 30, 2002. This is a request for extension of a currently approved collection.

Abstract: Section 4010(c) of the Resource Conservation and Recovery Act (RCRA) of 1976 requires that EPA revise the landfill criteria promulgated under paragraph (1) of section 4004(a) and section 1008(a)(3). Section 4005(c) of RCRA, as amended by the Hazardous Solid Waste Amendments (HSWA) of 1984, requires states to develop and implement permit programs to ensure that MSWLFs and non-municipal, non-hazardous waste disposal units that receive household hazardous waste or CESQG hazardous waste are in compliance with the revised criteria for

the design and operation of non-municipal, non-hazardous waste disposal units under 40 CFR part 257, subpart B and MSWLFs under 40 CFR part 258. (40 CFR part 257, subpart B and 40 CFR part 258 are henceforth referred to as the "revised federal criteria".) Section 4005(c) of RCRA further mandates the EPA Administrator to determine the adequacy of state permit programs to ensure owner and/or operator compliance with the revised federal criteria. A state program that is deemed adequate to ensure compliance may afford flexibility to owners or operators in the approaches they use to meet federal requirements, significantly reducing the burden associated with compliance.

In response to the statutory requirement in section 4005(c), EPA developed 40 CFR part 239, commonly referred to as the State Implementation Rule (SIR). The SIR describes the state application and EPA review procedures and defines the elements of an adequate state permit program.

The purpose of the ICR is to allow EPA to continue its evaluation of state permit program applications to determine whether they satisfy the statutory test reflected in the requirements of 40 CFR part 239. In all cases, the information will be analyzed to determine the adequacy of the states permit program for ensuring compliance with the federal revised criteria. The analysis will also assist EPA in complying with the Government Performance and Results Act (GPRA) of 1993. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on October 11, 2001 (66 FR 51949); no comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 177 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the

existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States that seek approval of new or modified permit programs for MSWLFs and for non-municipal, non-hazardous waste disposal units that receive CESQG waste.

Estimated Number of Respondents: 18.

Frequency of Response: One-time only.

Estimated Total Annual Hour Burden: 3,189 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1608.03 and OMB Control No. 2050-0152 in any correspondence.

Dated: April 15, 2002.

Oscar Morales,

Director, Collection Strategies Division.

Request for Public Comment on Proposed Consent Decree Involving Pesticides and the Endangered Species Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is making available for comment a proposed consent decree that would establish a series of deadlines for the Agency to begin consulting with the U.S. Fish and Wildlife Service (FWS) and the National Marine Fisheries Service (NMFS) relative to certain pesticide uses and their potential effects on certain plant and fish species listed as threatened or endangered. EPA will evaluate all comments received during the public comment period to determine whether all or part of the proposed consent decree warrants reconsideration. This proposed consent decree, if entered by

the Court, would resolve a lawsuit brought against EPA under the Endangered Species Act (ESA), by Californians for Alternatives to Toxics (CATs), the Environmental Protection Information Center, Inc., and the Humboldt Watershed Council (jointly, Plaintiffs).

DATES: Comments, identified by docket ID number OPP-2002-0056, must be received on or before May 29, 2002.
