

its Form 395-B to determine what changes were needed to comply with the new OMB standards, and whether it could conform Form 395-B to those standards consistent with Section 334 of the Communications Act of 1934, as amended (the "Act"). 47 U.S.C. 334; see 2004 Order at 9978.

With the EEOC's release of the EEO-1 incorporating revised racial and employment categories, the FCC's Media Bureau sought public comment ("Media Bureau Seeks Comment on Possible Changes to FCC Forms 395-A and 395-B," Public Notice DA 08-752, released April 11, 2008; 73 FR 21346, April 21, 2008) ("Public Notice") on whether to incorporate the EEOC's revised categories and whether such changes would be consistent with Section 334 of the Act. The public comment period ended on June 6, 2008, and the Commission completed its review of all the comments and reply comments. The Commission did not receive any comments opposing the incorporation of the EEOC's revised categories in the FCC's annual employment reports.

The Commission concluded that the proposed changes to FCC Form 395-B are consistent with Section 334 of the Act, which allows the FCC to make non-substantive technical or clerical revisions to annual employment reports in order to reflect changes in, *inter alia*, terminology. Because these changes do not subtract any information requested on the form, but rather seek more detail on race identification and official/manager occupations, with minor changes in terminology, we concluded that they are consistent with Section 334. 47 U.S.C. 334.

#### SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0511.

**Title:** ARMIS Access Report.

**Report No.:** FCC Report 43-04.

**Type of Review:** Extension of a currently approved collection.

**Respondents:** Business or other for-profit.

**Number of Respondents:** 76 respondents; 76 responses.

**Estimated Time per Response:** 153 hours.

**Frequency of Response:** Annual reporting requirement.

**Obligation to Respond:** Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. 161, 219(b) and 220 of the Communications Act of 1934, as amended.

**Total Annual Burden:** 11,628 hours.

**Total Annual Cost:** N/A.

**Privacy Act Impact Assessment:** N/A.

**Nature and Extent of Confidentiality:**

Ordinarily, questions of a sensitive nature are not involved in the ARMIS 43-04 Access Report. The Commission contends that areas in which detailed information is required are fully subject to regulation and the issue of data being regarded as sensitive will arise on special circumstances only. In such circumstances, the Commission instructs the respondent on the appropriate procedures to follow to safeguard sensitive data. Respondents may request confidential treatment of their documents under 47 CFR 0.459 of the Commission's rules.

**Needs and Uses:** The Federal Communications Commission is submitting this information collection (IC) to the OMB as an extension during this comment period to obtain the full three-year clearance from them. The Commission is reporting a -918 burden hour reduction (adjustment). This adjustment is due to fewer respondents (from 82 to 76 from the last time this information collection was submitted to the OMB). Therefore, the total annual burden hours are now estimated at 11,628 hours.

The Automated Reporting Management Information System (ARMIS), Report 43-04, Access Report provides jurisdictional separations and access charge data by Part 36 category of the Commission's rules and regulations. The ARMIS Report 43-04 monitors revenue requirements, joint cost allocations, jurisdictional separations and access charges.

**Note:** The Commission in its Memorandum Opinion and Order, WC Docket Nos. 07-21 and 05-342, 23 FCC Rcd 7302, released April 24, 2008, granted AT&T's petition for forbearance, finding conditionally that AT&T, as a price cap carrier generally not subject to rate-of-return regulation, has demonstrated that forbearance from enforcing the Cost Assignment Rules satisfies the

standard for forbearance under section 10 of the Act. Specially, the Commission concluded that there is no current need to apply the Cost Assignment Rules to AT&T. In addition, the Commission stated that LECs similarly situated to AT&T are free to seek comparable forbearance relief. Among other things, AT&T asked for forbearance from four of the Commission's reporting requirements, including the Access Report (ARMIS 43-04.) As a condition of this forbearance, the Commission required AT&T to file a compliance plan, which must include, among other things, a description of its imputation methodology. AT&T must demonstrate that its access charge imputation methodologies remain consistent with section 272(e)(3) of the Communications rules and the Section 272 *Sunset Order*. In particular, AT&T's compliance plan must describe how it will account for imputed tariff rates given the grant of the requested forbearance from section 32.5280(b) and (c) of the Commission's rules. The Commission required that AT&T describe in detail how it will continue to fulfill its statutory and regulatory obligations, including section 254(k), and the conditions of this Order. The relief granted in this Order will not become effective unless and until AT&T's plan is approved. The compliance plan must also include AT&T's first annual certification that it will comply with its obligations under section 254(k) in the absence of the Cost Assignment Rules and will provide any requested cost accounting information necessary to prove such compliance. Also, the Commission required AT&T to include a proposal for how it will maintain its accounting procedures and data in a manner that will allow it to provide useable information on a timely basis if requested by the Commission to comply with any of the conditions of this relief and its commitment to the Commission. Finally, the plan must include an explanation of the transition process that AT&T will undertake, including an expected schedule, to discontinue compliance with Cost Assignment Rules and replace them with the procedures outlined in its compliance plan upon approval of the plan. The Commission delegated to the Chief of the Wireline Competition Bureau (Bureau) to prescribe the administrative requirements of the filing and to approve the plan when the Bureau is satisfied that AT&T will implement a method of preserving the integrity of its accounting system in the absence of the Cost Assignment Rules. Upon approval, the Bureau will release a public notice notifying the public of approval of the plan.

In the Commission's Memorandum Opinion and Order and Notice of Proposed Rulemaking WC Docket No. 08-190, *et al.*, FCC 08-203, released September 6, 2008, it noted that in this proceeding parties have raised the issue of the overlap between the ARMIS requirements at issue in this proceeding and certain cost assignment relief previously granted to AT&T. Because the Commission found that the reasoning of the *AT&T Cost Assignment*

*Forbearance Order* applies to Verizon and Qwest, it took the opportunity, on its own motion, to extend to them the conditional forbearance granted in the *AT&T Cost Assignment Forbearance Order*, subject to approval of their compliance plan.

The Commission uses an indexed revenue threshold to determine which carriers are required to file the ARMIS reports. The current revenue threshold between Class A carriers and Class B carriers is \$138 million and the revenue threshold between larger Class A carriers and mid-sized carriers is \$8.181 billion.
