After evaluation of those three factors and calculation of a rating for Local Financial Commitment, FTA considers the CIG share request. Specifically, if the CIG share request is less than 50 percent and the calculated Local Financial Commitment rating is at least Medium, the rating is boosted one level. Small Starts and Core Capacity Improvement projects can qualify for financial warrants (automatic financial ratings) under certain circumstances.

19. Project sponsors that do not qualify for warrants (automatic financial ratings) must submit a 20-year cash-flow statement to FTA for evaluation and rating. Should FTA consider accepting cash flow statements for other time periods (e.g., a 10-year, 15-year, or 25-year project cash-flow statement)? If so, please explain why and the suggested time period.

FTA welcomes any additional feedback on the CIG program, including topics not listed in the questions above.

All interested parties are encouraged to respond to this RFI. Submissions are strictly voluntary. Individuals or entities responding to the RFI should state their role as well as knowledge and experience of the CIG program. FTA may request additional clarifying information from any or all respondents. If a respondent does not wish to be contacted by FTA for additional information, a statement to that effect should be included in the response. All information submitted should be unclassified and should not contain proprietary information.

FTA is not obligated to officially respond to the information received, but the responses will greatly assist FTA in developing proposed CIG policy guidance changes.

Comments may be submitted and viewed at Docket No. FTA-2021-0010 at <http://www.regulations.gov>.
